<tbody>
<tr>
<td>1</td>
<td>Distribution of Age of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>2</td>
<td>Distribution of Educational Qualification of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>3</td>
<td>Distribution of Teaching Experience of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>4</td>
<td>Distribution of Marital Status of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>5</td>
<td>Distribution of the type of Family of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>6</td>
<td>Distribution of the salary of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>7</td>
<td>Distribution of the monthly income of the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>8</td>
<td>Distribution of self rating of success of the Ss included in the Pilot sample</td>
</tr>
<tr>
<td>9</td>
<td>Distribution of attraction developed towards students expressed by the Ss included in the Pilot Sample</td>
</tr>
<tr>
<td>10</td>
<td>Inter-Item correlations among the items of the Scale Leadership process of POC</td>
</tr>
<tr>
<td>11</td>
<td>Inter-Item correlations among the seven items of the Scale Motivation Forces of the POC</td>
</tr>
<tr>
<td>12</td>
<td>Inter-Item correlations among the fourteen items of the Scale communication process of the POC</td>
</tr>
</tbody>
</table>
13 Inter-Item correlations among the six items of the Scale Interaction-Influence Process

14 Inter-Item correlations among the eight items of the scale decision-making process of the POC

15 Inter-Item correlations among the three items of the Scale Goal Setting or Ordering of the POC

16 Inter-Item correlations among the five items of the Scale control process of POC

17 Inter-Item correlations among the three items of the Scale Performance Goals and Training of the POC

18 The Split half reliability coefficients of the eight scales of the POC

19 The correlations between the individual item-scores and the sum scores of the eight scales of the POC

20 The Inter correlations among the Sum scores of the eight scales of the POC

21 The Reliability Co-efficients of the AQ, the ASs, the STAI, the JRTI, the POQ and the IQ Test

22 Duration of time (in minutes) taken for Administering the instruments in the Pilot Sample.

23 Distribution of Age of the Ss included in the Final Sample

24 Distribution of Educational Qualification of the Ss included in the Final Sample

25 Distribution of the Teaching Experience of the Ss included in the Final Sample
26 Distribution of Marital Status of the Ss included in the Final Sample

27 Distribution of the Type of Family of the Ss included in the Final Sample

28 Distribution of the Salary of the Ss included in the Final Sample

29 Distribution of the total monthly income of the Ss included in the Final Sample

30 Distribution of self rating of success of the Ss included in the Final Sample

31 Distribution of attraction developed towards students expressed by the Ss included in the Final Sample

32 PRELIMINARY PROFILES OF THE TWENTY THREE COLLEGE STUDIED (Mean Raw scores of the respondents obtained on the 8 scales of POC)

33 NORMATIVELY STANDARDIZED PROFILES OF THE TWENTY THREE COLLEGES STUDIED (Scores on the dimensions were standardized across the dimensions taking mean of 50 and SD of 10).

34 IPSATIVELY STANDARDIZED PROFILES OF THE TWENTY THREE COLLEGES STUDIED (Normatively standardized scores of the Colleges were standardized across the institutions taking mean of 50 and SD of 10)

35 D-Statistics : Clustering of the institutions included in the sample with reference to the ideal types of the four systems of Likert
36 Clustering of the institutions in the sample with reference to the four systems (The numbers in the table refer to the serial number of the College in the sample frame)

37 Clustering of the institutions in the sample with reference to the four systems.

38A The Summary of the Analysis of covariance of the Scores of the Ss belonging to different systems on state alienation.

38B The Table of Means pertaining to the Scores of the Ss on State Alienation Scale of AQ

39A The Summary of Analysis of covariance of the Scores of the Ss belonging to different systems on State Anxiety.

39B The table of means pertaining to the scores of the Ss on State Anxiety of the STAI

39C Testing of the specific differences between means of anxiety

40A The Summary of analysis of covariance the scores of the Ss belonging to different systems on Job Related tension

40B The table of means pertaining to the scores of the Ss on Job Related Tension of JRTI

40C Testing of the Specific Differences between means of Job Related Tension

41 Mean Scores of the high and low group on trait alienation of the different scales of POC and F-ratios relating to their differences
Mean scores of the high and low group on Trait Anxiety on the different scales of POC and F-ratios relating to their differences

Mean scores of the high and low group on Probabilistic Orientation on the different scale of POC and F-ratios relating to their differences
