ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude to my research guide, Dr. B. MUNIYANDI, Ph.D., former lecturer, Bharathiar School of Management and Entrepreneur Development and at present Reader, Economics Department, Bharathiar University, for his valuable guidance at various stages of this research work. His continuous support, encouragement and scholarly suggestions have greatly helped me in writing the thesis. Without his painstaking effort, constant help and support, it would have become a difficult task in completing the research work.

I humbly express my sincere thanks to Dr. P. MUTHUSAMY, Director, BSMED, for his suggestions and in providing necessary guidelines without hesitation.

My profound and sincere thanks are also due to Prof. K. Ramakrishnan, Dr. R. Yenkatapathy, Mr. K. Vivekanadan, Mr. R. Shanmugam, Mr. P. Thirumalavan, Mr. S. Shankaranarayanan and Mr. S. Elangovan, faculty of BSMED, for their cooperation and encouragement given to me throughout the course.

My respectful thanks are due to Dr. S. Perumalsamy, Professor and Head, Department of Economics and other
faculty members of the department, Dr. R.S. Dhananjayan, Dr. P. Arumugam and Dr. V. Anbumani, for their encouragement in completion of the work.

I find no words to express my profound thanks to all the respondent farmers and traders of the study area and the officials of CCI and regulated markets, for their kind help and co-operation in providing the necessary information without hesitation.

It is with deep sense of reverence, I thank my beloved parents who have constantly encouraged and supported my entire academic career. I extend my thanks to my sisters and brothers-in-law who were instrumental in joining this course. Thanks is too small a word to express my gratitude to my husband for consenting to do the research work and extending his support all through the course. I take this opportunity to thank my both sons for bearing patiently with me throughout the study period.

I would also like to thank all the non-teaching staff of the BSMED who kindly co-operated and extended their help whenever needed. I thank all my fellow research scholars for their help throughout the different faces of the thesis.

Last but not the least I would also thank the "Jupiter Computers" who have neatly typed and brought out the thesis.
