DEDICATED TO

MY BELOVED PARENTS WHO ARE NO MORE
AND MY DEAR WIFE AND CHILDREN
ACKNOWLEDGEMENT

It is my privilege to acknowledge my deep debt of gratitude to Dr. N. Vasudevan Nair, Professor of Physics, N.S.S. College, Pandalam, who functioned as my supervising guide during my doctoral studies and made it possible for me to undertake this work of research and bring it to a successful conclusion. It is no exaggeration to say that his profundity of scholarship served to get me out of my intellectual haze and see the light of reason during the arduous course of this study.

I must next thank Dr. P. Parmeswaran Pillai, the former Professor of Physics, M.G. College, Thiruvananthapuram, and Professor George M. Varghese, the former principal, Government Arts College, Thiruvanthapuram for their inspiring encouragement and valuable advice.

My special thanks also go to the management, principal and staff of Pioneer Kumaraswamy College, Nagercoil, for their joyful readiness to let me become a doctoral scholar.

I must now express my deep appreciation for the good suggestions and assistance I got from my friends and folks for the accomplishment of my work. I take this opportunity to thank my wife, K.P. Sobhanakumari, and my daughters Aswathy V. Nair and Aarathy V. Nair for adding
their labour of love and patience to make my work find completion.

I also make use of this opportunity to extend my sense of gratitude to the Department of Physics, IIT, Kanpur and Regional Research Laboratory of CSIR, Thiruvananthapuram for the facilities provided to me for the completion of this work.

Finally, Dr. M. Rajendran, Veeralakshmana Computers, who got the matter typed without errors of any kind, the staff of Sharp Xerox, who helped with meticulous care to make photocopies of it and the staff of St. Joseph's Press, Thiruvananthapuram, who took particular care to avoid misprints and bring out copies of it beautifully bound, need to be thanked from the bottom of my heart.

K. Vijayakumaran Nair
