Dedicated to
the memory of
my beloved teacher
Dr. P. Parameswaran Pillai
Former Professor of Physics
Mahatma Gandhi College
Thiruvananthapuram
I convey my heartfelt gratitude to my supervising teacher Prof. V. K. Vaidyan who had been a source of immense inspiration throughout the course of my research. He had the greatness to give me the maximum freedom in being independent as far as my work is concerned. I gratefully acknowledge his valuable guidance, constant encouragement and constructive criticism during the entire tenure of my work.

It would be quite unbecoming of me if I leave out the names of Dr. S. Devanarayanan, Professor and Head and Dr. G. Aruldas (former Professor and Head) department of physics, University of Kerala for providing me all the facilities. I am also thankful to Prof. S.R. Prabhakaran Nair and Prof. G. Renuka of the department.

I note down here with all humility my indebtedness to Dr. C.M.K. Nair, Head of the department of physics, Mahatma Gandhi College, Thiruvananthapuram for the honest appraisal of my chapters as they were taking shape and also helping me for finalising the thesis.

I also record my immense gratitude to Dr. K. Gopinathan Nair, Deputy Manager, Research and development, Travancore Titanium Products Ltd, Thiruvananthapuram for the X-ray studies carried out in this thesis. His genuine interest in the subject helped me to mould the thesis effectively.

I am greatly indebted to Prof. V. Unikrishnan Nair, Professor and Head, Department of opto-electronics for his keen interest in my work. My sincere thanks to Prof. P. Indrasenan, Head of the department of chemistry, Dr. C.P. Joshua former Professor and Head of the department of Chemistry for providing me the facilities of the department. I also take this opportunity to thank Prof. G.M. Nair, Department of Botany, University of Kerala for providing me the UV-visible facility.

My thanks are also due to Dr. Peter Koshy (Head, Instrumentation) Regional Research Laboratory, Thiruvananthapuram for carrying out the scanning electron microscopic studies. I am indebted to Prof. K.P. Thrivikramajji, Department of Geology, Univeristy of Kerala for providing me the photographic facilities. Thanks to Mr. C. Gopalakrishnan, Scientist, ASD, VSSC for the assistance in carrying out spectroscopic studies and the librarian of VSSC, Thiruvananthapuram for giving library facilities.

I also express my gratitude to Mr. Sabu Joseph, Senior research fellow, Department of Geology and Dr. R. Ratheesh, RRL, Thiruvananthapuram for their valuable help in optical and spectral studies. The co-operation extended by Mr. K.G. Gopchandran, Mr. Benny Joseph, Mr. P.K. Manoj and Mr. J. Bushiri of the Department of Physics are also thankfully acknowledged.

I also thank my wife Dr. M. Deepa, Lecturer, Department of Physics, All Saints' College, Thiruvananthapuram, who has assisted me during my work.

I am also indebted to Prof. K. Ravindran Nair, Principal, N.S.S. College Nilamel and my colleagues in the Department of Physics for their wholehearted encouragement. I also owe to the N.S.S. management for permitting me to do part-time research.

My thanks are also due to Mr. T.L. John, photographer, Department of Zoology, University of Kerala for preparing the optical micrographs with perfection and skill and Compu-Print for neatly typing the manuscript.

Finally I thank all research scholars, librarian and members of the teaching and non-teaching staff of the Department of Physics, University of Kerala, for their co-operation.
