ACKNOWLEDGEMENT

In the presentation of this thesis, I owe my deepest gratitude to Dr. J. L. VATS, Department of Chemistry, N.A.S. (P.G.) College, Meerut (Supervisor) without whose willing co-operation and encouragement, the work would have been a fruitless venture. I find myself lucky to have got a privileged opportunity to work under his focused and esteemed supervision. His erudite knowledge redounded in multiple benefits in procuring the material and commenting in detail on the greater part of my work.
