CONTENTS

I. Introduction 1
II. Review of Literature 3
III. Material and Methods 36
IV. Experimental Results 62

Part – I

i. Phytochemical Study of Plumbagin and Lawsone

1. Extraction and Isolation of Plumbagin and Lawsone 62
2. Ultraviolet and Infrared Spectrum of Plumbagin and Lawsone 67

Part – II

ii. Antimicrobial Activity

1. Antibacterial and Antifungal Activity of Plumbagin and Lawsone 72
2. Minimum Inhibitory Concentration of Plumbagin and Lawsone 72

iii. Anti-inflammatory Activity

79

iv. Hepatoprotective Activity

1. Therapeutic Activity 83
   a. Morphological Changes 83
   b. Biochemical Changes 83
   c. Histological Changes 84
2. Prophylactic Activity

V. Discussions

VI. Summary

VII. Bibliography
