ACKNOWLEDGEMENT

With a deep sense of gratitude and indebtedness, I thank Dr. B.K. Wodeyar, Reader in Geology, Karnatak University, Dharwad, for his constant encouragement and inspiring guidance towards the development of this research work.

I sincerely thank Dr. K. Gowdreddy, Professor and Chairman, Department of Studies in Geology, for providing me the facilities to carry out this investigation, and for his encouragement throughout this research work.

I express my thanks to Prof. N. W. Gokhale and Prof. T. C. Devaraju, former Chairmen, Department of Studies in Geology, for their help and interest shown in the progress of this investigation.

It is a pleasure to express my sincere thanks to Prof. M. S. Aaradhya, Post-graduate Department of Studies in Botany, Karnatak University, Dharwad, for his association with me in carrying out the geobotanical survey of the study area and in the identification of the plant species.

I am very much grateful to Sri S. S. Chandrashekarath, Senior Geophysicist and other officers of the Department of Mines and Geology, Government of Karnatak, for their help in conducting the geophysical well logging studies, and for providing the Landsat imagery.

I thank Prof. M. S. V. Raghav, Al-Fateh University, Libya, for his valuable assistance in interpreting the geophysical well logging data.

The meteorological information and data given by the Dharwad District Statistical Department is gratefully acknowledged.
Many teachers in the Department have encouraged me at various stages of my research work. I specially wish to acknowledge the suggestions of Dr H M Jayasheela, Dr S D Khanadali and Prof M S R Jamkhandi.

My thanks are due to Sri S R Patil, Advocate, Hangal, who extended his cooperation and made our stay comfortable at the time of the field work.

I thank the Management of Eastern Circuits Ltd, and specially Sri S G Patil, General Manager, who granted me the necessary leave during the finalization of the thesis.

I wish to express my special thanks to my research colleagues, Dr. V S R Krishna, Dr T S R Chowdary and Sriyuts G Subbarao, A S Vaidya, K R Jayaraj, V R Hegde, S N Hegde and S B Chetti, and friends for their help and keen interest in bringing out this thesis.

It is with deep sense of gratitude, I express my heartfelt reverences to my uncle and aunt, Prof V G Marimal and Mrs Parvatibai Marimal, for their constant help, encouragement and affection shown to me, right from my childhood through the highest degree of Ph D.

The sacrifice made by my parents and all the members of the 'Marimal Family' is acknowledged with a sense of everlasting gratitude.

Last, but never the least, I thank the authorities of Karnataka University, Dharwad, for providing me the research studentship.

Dharwad

SHIVANAND S. MARIMAL
