CONTENTS

SECTION - I GEOLOGICAL STUDIES

CHAPTER 1 INTRODUCTION 1-25

1.1 Introduction 1
1.2 Location and extent 6
1.3 Accessibility 6
1.4 Varada river 7
1.5 Groundwater investigations in hard rock terrains 8
1.5.1 Previous hydrological studies carried out in Karnataka State with reference to the present area of investigation 13
1.6 Aim, scope and limitations of the present study 16
1.7 Methods of study 18

CHAPTER 2 GEOMORPHOLOGY AND MORPHOMETRY 26-45

2.1 Introduction 26
2.2 Landform study 26
2.3 Morphometric analysis 33
2.4 Conclusions 44

CHAPTER 3 GEOLOGY OF THE AREA AND STRUCTURAL STUDIES 46-75

3.1 Introduction 46
3.2 Geology of Karnataka State 46
3.3 Review of the previous work 48
3.4 Stratigraphic relations in Dharwar craton 50
3.5 Geology of the Varada basin 51
3.6 Stratigraphy of VRLB
3.7 Field occurrence and petrography of major lithounits
3.8 Hydrogeological characters of the major lithounits
3.9 Structural studies
3.10 Frequency azimuth rose diagrams
3.11 Soils of the area
3.12 Conclusions

SECTION - II HYDROLOGICAL INVESTIGATIONS

CHAPTER 4 HYDROMETEOROLOGICAL STUDIES

4.1 Introduction
4.2 General climate of the study area
4.3 Precipitation
4.4 Evapotranspiration
4.5 Temperature
4.6 Humidity
4.7 Wind velocity
4.8 Cloudiness and special weather characteristics
4.9 Surface run-off
4.10 Conclusions

CHAPTER 5 HYDROGEOLOGICAL STUDIES

5.1 Introduction
5.2 Well-inventory studies
5.3 Aquifer studies
5.4 Groundwater balance studies
5.5 Conclusions
CHAPTER 6 HYDROGEOCHEMISTRY

6.1 Introduction 139
6.2 Methods of investigation 140
6.2.1 Measurement of physical parameters 140
6.2.2 Determination of chemical parameters 143
6.3 Analysis of the chemical data 145
6.4 Conclusions 173

CHAPTER 7 GEOBOTANICAL STUDIES

7.1 Introduction 177
7.2 Previous studies 179
7.3 Methodology 180
7.4 Classification of plants of the area 181
7.4.1 Phreatophytes of the area 183
7.5 Herbaceous bottomland flora 190
7.6 Discussion 191
7.7 Geohydrological studies in relation to phreatophytes of Varada river lower basin 193
7.8 Geoelectrical studies in relation to phreatophytes 196
7.9 Conclusions 201

SECTION - III GEOELECTRICAL STUDIES

CHAPTER 8 GEOELECTRICAL STUDIES

8.1 Introduction 203
8.2 Field procedure 206
8.3 Instrument used 208
8.4 Interpretation of sounding data and limitations of the resistivity methods 208
8.4.1 Qualitative methods 210
8.4.2 Quantitative methods
8.5 Details of the investigation
8.6 Discussion and results of electrical restivity investigations in Varada river lower basin
8.6.1 Phase-1 Test well studies
8.6.2 Phase-2 Vertical electrical soundings
8.6.3 Phase-3 Geoelectric cross sections and profiles
8.6.4 Phase-4 Radial vertical electrical soundings
8.6.5 Phase-5 Exploratory studies
8.6.6 Phase-7 Geophysical well logging studies

SECTION - IV

CHAPTER 9 CONCLUSIONS AND RECOMMENDATIONS
