ACKNOWLEDGMENTS

I consider myself very fortunate to have worked under the able guidance of Dr. S.T. NANDIBEOOR, READER P.G. Department of studies in Chemistry, Karnatak University, Dharwad. I feel short of words to express my deep sense of gratitude and appreciation to aim for his valuable guidance, stimulating discussions and everlasting encouragement throughout the course of this investigation.

I am extremely thankful to DR J.R. RAJU, READER P.G. Department of studies in Chemistry, Karnatak University, Dharwad for his keen interest, inspiring guidance and valuable discussions, encouragement throughout the course of research work.

I am highly indebted to my brothers Sriyuths Dharmappa, Sahadev and Prabhu for their inspiration and encouragement throughout my educational career.

I gratefully acknowledge the facilities provided by the Karnatak University, Dharwad during the course of this work. My regards are due to Prof G.S. Puranik, the Chairman, P.G. Department of studies in Chemistry. I am also thankful to Prof B.R. Havinale, Prof A.S.R. Murthy and Prof M. Madaiah, for their encouragement throughout my research work.

I would like to thank Dr. S.A. Chimatadar, Dr. (Miss) K. Sailajakumari and Shri M.I. Sambrani, without whose timely help this thesis would not have taken this shape.

I never forget the help rendered by my research colleagues, Mr. A.G. Kamat, Mr. C.V. Yelamaggad, Mr. M.Y. Kariduraganavar, Mr. C.S. Karigar, Miss V.A. Morab, Miss V.S. Gokak, Miss U.S. Hiremath, and Miss S.H. Gangi, who were always on their feet to help me in one way or the other.
I am indeed greatly indebted to the staff members of U S I C Karnatak University, Dharwad for providing facilities and help to carry out the experiments using UV and Visible Spectrophotometer and other instruments.

Finally, as a research student at the Department of Chemistry, Karnatak University, Dharwad, I have received immense help and encouragement by the many staff and student members. I take this opportunity to thank all of them.

DHARWAD
