About Author

Author of this thesis, Mr. Mahaveer D. Kurkuri, was born on 19th May 1975 in Haveri, Dharwad Dist., Karnataka state, India as the only son of Shri D. R. Kurkuri and Smt. Jayalaxmi. He has completed his primary education in Hangal, Dharwad district, and then moved to Sirsi, North Kanara District to continue higher secondary education, which he completed in the year 1991. And then he joined M. M. Arts and Science College, Sirsi to pursue his Pre University and Bachelor of Science (B.Sc) degree (1996) from Karnataka University, Dharwad.

Later, he enrolled for Master's degree (M.Sc.) in Polymer Science at University of Mysore, Mysore in the year 1996. He was a guest lecturer in M. M. Arts and Science College, Sirsi for one academic year (1998-1999) to teach chemistry for degree students. Interest in research and teaching made him to pursue and complete his doctoral degree (Ph.D.) under the able guidance of Professor T. M. Aminabhavi, Director, CEPS, Karnataka University, Dharwad, India in an interdisciplinary area of Polymer Science and Pharmaceutics. During this tenure of his doctoral degree he has published about 10 research papers in internationally reputed scientific journals and presented 6 articles in various national/international symposia and conferences.
