Acknowledgements

My respectful regards to Śrī Śrī Abhinava Vidyā Tīrtha Mahāsvāmiji, the present Jagadguru of the Śrıṅgērī Māṭha, whose encouragement and blessings have helped me in successfully completing the present thesis, A History of Śrıṅgērī, within a reasonable period. His Holiness is magnanimous enough as to keep the archives of the Māṭha open for the world of scholars. That is why, I could make a sustained study of the kadatas of the Śrıṅgērī Māṭha.

I had the good fortune of studying under Dr. G.S. Dikshit, my respected professor and guide. It was he, who, initiated me into this research work. He has been a constant source of inspiration and encouragement. I should like to thank Dr. Dikshit whose methodical approach, sensitive judgement and guidance have contributed so much to the completion of the work.

I remember thankfully the benefits and help I have derived from the National and the Karnataka State Archives Departments. The authorities of these departments provided scope for my research work by assigning me the work of preparing the catalogue of the kadatas and other Kannada
records of the Śrīṅgērī Matha. In order to go through my thesis, this catalogue will be of great value.

I offer my hearty thanks to Sri K.Gunda Jois of Keladi, who, in the initial stages helped me a lot in reading the Kannada mōdi script of the kadaṭas.

I owe a deep debt of gratitude to various scholars like Sarvaśri K.R.Venkataraman, K.R.Srinivasan, S.Settar, V.S. Ramachandra Shastri, Vishvanatha Rajgopal Sharma and several others whose guidance and encouragement I can never forget.

Prof.R.Nagaraj, Dr.A.Sundara, Prof.R.V.Shastri, Prof.B.D.Pathak, Prof.U.S.Hegde, Prof.M.N.Joshi and several others have helped me in different ways. To all these friends, I tender my most grateful thanks.

I have availed myself of the writings of previous writers on the subject to whom I am very much obliged.
