ACKNOWLEDGEMENT

Someone has rightly said ‘A good beginning is half done’. For me too, this has come true with Dr. (Smt) Bharati V. Badami, Professor of Organic Chemistry, Karnataka University, Dharwad, as my Research Supervisor. It was her to etiolate me and escalate my carrier to the height, I stand today. In her I have seen a heart of a guardian and warmth of a friend. I consider myself very fortunate for having worked under her able guidance. I am deeply indebted to her for her keen interest, dedicated guidance, stimulating discussions and everlasting encouragement by exploring new ideas throughout the course of investigation leading to the preparation of this thesis.

I sincerely thank Prof. V. B. Mahale, Chairman, P. G. Department of Studies in Chemistry, Karnataka University, Dharwad, for providing the facilities to carryout this investigation. I wish to express my gratitude to Prof. A. H. M. Siddalingaiah and Prof. L. D. Basangoudar, former Chairmen of the Department for their encouragement.

I owe a special debt of gratitude to Prof. G. S. Puranik, former Chairman (Retd.), P. G. Department of Studies in Chemistry, Karnataka University, Dharwad, for his affectionate encouragement and unreserved help.

I simply fumble for words to express my heavy debt of gratitude towards my teachers Prof. B. R. Havinale, former Chairman (Retd.), P. G. Department of Studies in Chemistry, Karnataka University, Dharwad, Prof. M. L. Budni, P. G. Department of Studies in Chemistry, Karnataka University, Dharwad, and Mrs. K. B. Havinale who instilled in me the feeling for going into research and were instrumental in making me to complete the task in stipulated time.

I am extremely grateful to my teacher Dr. M. V. Kulkarni, P. G. Department of Studies in Chemistry, Karnataka University, Dharwad, for valuable discussions.

I take this opportunity to sincerely thank my colleagues, Dr. J. J. Jogul, Mr. R. R. Kamble, Dr. (Ms) S. G. Mallur for their concern and helping nature during the years of my research.
I would like to express my thanks to Mr. H. P. Doddamani, P. G. Department of Studies in Biochemistry, Karnataka University, Dharwad, Mr. R. S. Chavan and Mr. R. K. Chalannavar, P. G. Department of Studies in Botany, Karnataka University, Dharwad, for helping in evaluation of the biological activities of our compounds.

I wish to record my sincere thanks to Dr. T. T. Upadhya (NCL, Pune), Mr. T. H. Bennur (NCL, Pune) Mr. B. S. Patil (Recon, Bangalore), Mr. R. G. Bhat (IISc, Bangalore), R.S.I.C, IIT, Madras (Chennai), IISc, Bangalore, CDRJ, Lucknow, R.S.I.C, Punjab University, Chandigarh, IICT, Hyderabad and USIC, Staff, Karnataka University, Dharwad, for their help in getting analytical and spectral data.

I want to place on record my thanks to all my research colleagues. Also I thank Dr. I.M.Khazi, Dr. V.N.Aankolekar, Dr. H.M.V.Swamy, Mr. V.M.Nayak, Mr. M.D. Ghate, Mr. M.S Joseph, Mr. V. S. Gangadharath, Mr. S. M. Annigeri and some of my friends Ms. B. S. Tubachi, Mr. S. S. Ijari, Mr. N.S. Kulkarni, Dr. Shakuntala, B. K, Ms.A.S.Patankar, Ms.M.M.Pathan and Mrs.D. S.Demhre for their considerable attitude and helping nature during the years of my research.

I sincerely thank Prof. P. R. Hanchinmani, Hanchinmani tutorials, Vidyagiri, Dharwad, Dr. R.G.Joshi and Dr. V.L.R.Goudar for their keen interest in the progress of this investigation.

On this threshold of my achievement only thing now remains is to be grateful to my parents whose blessings, sacrifice and moral backing made this endeavour of mine a reality. The sacrifice made by my elder brother Raju, younger brother Vinod and cousin Nataraj is acknowledged with a sense of everlasting gratitude.

Lastly I wish to thank all those helped me directly or indirectly to complete this work.

Dharwad

11th October, 1999

Jyoti R. Kavali
