But from start to finish, the most important source of inspiration was his wife Mrs. VELMAYILKUMARASAMY, M.Sc., M.Phil, Dip. in Ed., Lecturer, Senior Scale, Avanashilingam Institute for Home Science and Higher Education for Women, Coimbatore 641 043, who provided not only good advice, but something far rarer, a good example. No long term research (on a part time basis) such as this could be accomplished without the support of his daughter, Miss K. Selvupoonkothul and he is most grateful for the positive commitment extended by her in this regard.

Last but not least the author is thankful to the respondents (Telugu Boyas) for their valuable cooperation extended to this investigation, without which the work would not have been possible.
