ACKNOWLEDGEMENT

At the very outset I express my sincere gratitude to my teacher and research supervisor Dr. S.S. Naregal, under whose able and scholarly guidance this research work has been carried out by me. His constant encouragement and masterly suggestions at all the stages of this research endeavour both in the laboratory as well as in the field inspired me to put-forth my utmost labour and as a result of which this thesis is seeing the light of the day.

I must express my profound thanks to late Professor M.S. Honrao (ex-Head, Department of Geography) for encouraging me to continue the research interest in the field of Geography.

I must thank Karnataka University, Dharwad for the award of studentship for my research work for three years. At the same time I must say thanks to I.C.S.S.R., New Delhi, for having given me the travel grant to make reference work at I.C.S.S.R. Library Centre, Bombay. I remember with gratitude the timely guidance given by Dr. L.S. Bhat, Indian Statistical Institute, New Delhi in redesigning the title of this thesis and also several suggestions.
I thank Dr. N.C. Vijayaraj and Dr. M.F. Karennavar, Heads of the Department of Geography, Karnataka University, Dharwad, for extending me all the possible technical help in the Department. I remember the teachers like Dr. D.G. Kulkarni and Shri. S.S. Nanjannavar for their suggestions pertaining to aspects of physical geography referred to in this thesis, and same time thank other teachers of the department like, Shri. V.S. Bhadrapur, Shri. F.V. Yavagal, Shri. S.C. Kadaramandalagi, Dr. S.R. Patil and also geography teachers of Karnataka Science College like, Shri. V.B. Kaddi, Mrs. H. Reddy, Shri. G.V. Togarasi, Shri. S.S. Shettar and others for their sympathy and good wishes for my work.

I must express my thanks to Prof. R.K. Koppar, of the Department of English, J.S.S. College, Dharwad for proof corrections of the draft. Dr. S.H. Kunohur, Shri. C.G. Hiremath and Shri. A.R. Wadakannavar for statistical help. I must remember the timely co-operation at all the stages of this work given by my friends Dr. A.R. Kulkarni (Lecturer, Dept. of Geography, P.G. branch, Belgaum) and Shri. S.B. Mhalade, Bombay.

I must be grateful for the inspirations and timely help given to me by the followings: father, mother, aunts, Shri. M.M. Katti, Shri. M.G. Kavalikai, Mrs. G.S. Naregal
Miss. K.S. Bhagawad (Patil), Shri. S.K. Patil and my other relatives and friends. I am also grateful for the co-operation extended by my college (S.S. Composite Jr. College, Inchal) staff and dear students at the time of my verification and compilation work.

My thanks also to Mr. S.S. Navati, for typing the script in time and Mr. B.S. Kamalapur and Mr. Vijaya Patil for their photographic assistance.

My sincere thanks are also due to the several authorities of the public and private offices of North and South Kanara Districts like, Tahasildars, District Statistical Officers, Fish Officers of the Departments of fish and ports, for the supply of relevant data and kind co-operation. Above all I record here the sympathy and help of the people of Coastal Karnataka in grateful rememberance.

10th December 1984

Dept. of Studies in Geography, Karnatak University, Dharwad-580 003, Karnataka (India)
