Words are few to express my sincere thanks and deep sense of gratitude to my guide **Dr. P. V. Mohanram**, Professor and Head, Department of Mechanical Engineering, PSG College of Technology, for his constant encouragement and continuous supervision in carrying out my research work. His kindness and patience have helped me a lot in the completion of this work. Without his persistent help, continued drive and timely motivation this thesis would not have taken the present shape.

I express my sincere thanks to **Dr. P. Radhakrishnan**, former Principal and **Dr. R. Rudramoorthy**, Principal PSG College for their constant encouragement and support provided during the research work. I am thankful to **Dr. K. Prakasan**, Professor and Head, Department of Production Engineering, PSG College of Technology for his support to carry out this work. I am highly obliged to **Shri K. Ananthraman and Shri A.R. Lakshmanan**, Asst. professor of Mechanical Engineering Department for their encouragement and support in carrying out this work.

I wish to register my sense of gratitude to the authorities of Defence Research and Development Organisation for permitting me to carry out this research work. In particular, I am thankful to **Shri Prahlada**, former Director, **Shri P. Venugopalan**, Director, **Shri I.K. Kaul**, former Director Engineering and **Shri N. Vishwanathan**, Director Engineering, of Defence Research and Development Laboratory, Hyderabad for their encouragement and giving me an opportunity for doing research and experimental work at DRDL Hyderabad.

I express my sincere thanks to all the scientists and technicians of Engineering Services Division of Directorate of Engineering and in particular **Shri A. Ramesh, Shri M.M. Reddy and Shri L.B. Prem Kumar, Shri I. Srinivas Rao** for their kind help whenever needed.

I have great pleasure in acknowledging the help and suggestions offered by **Shri S. Sai Kumar, Shri P. Kiran and Dr. Ramesh Kumar** in technical and non-technical issues.
I also wish to thank the Management of DRDL Hyderabad for the facilities and support provided during the conduction of experiments for this work.

I also thank the technicians of Wire-cut, High Speed Machining and Electron Beam Welding for their help during the conduction of experiments.

I wish to thank the Management of PSG College of Technology, Coimbatore for the facilities and support provided in carrying out this work.

I thank all the faculty members of PSG College of Technology, Defence Research and Development Laboratory, Hyderabad and all my friends and relatives, who have helped me to complete this research work either directly or indirectly.

My sincere appreciation is due to my parents, wife and children for their co-operation and tolerance, which made possible for me to complete this research work.

May, 2006
