ACKNOWLEDGEMENT

First and foremost the author would like to offer his obeisances to the 
Almighty for giving him enough strength to accomplish this research study.

The author records his sincere thanks to Dr. B. S. Dasaradan, Department of Textile Technology, PSG College of Technology for his valuable guidance and personal supervision at each and every stage of this work.

The author is grateful to the Management of PSG College of Technology for the excellent facilities provided for the successful completion of this research work.

He expresses his sincere thanks to Dr. P. Radhakrishnan, Former Principal of PSG College of Technology for initiating this research work.

He is thankful to Dr. S. Vijayarangan, Principal, PSG College of Technology for the support extended to him in the course of this work.

He acknowledges with thanks Dr. A. Venkatachalam, Professor and Head of the Department of Textile Technology, PSG College of Technology for the constructive criticism and motivation offered at various stages of this research work.

The author expresses his profound thanks to the management of M/s. The Lakshmi Mills Co. Ltd., Palladam, their General Manager Mr. S. Baskaran and Quality Control Officer Mr. V. Ramesh and the
management of M/s. Sri Jayajothi & Co. Ltd., Sulakarai and their Spinning Master Mr. D. Venkatesan for providing all the required facilities and assistance to carry out the experimental work in their mills.

He thanks the Management of M/s. Premier Polytronics Ltd., Coimbatore, their Vice President Mr. S. Thirupathy and Manager Product Support, Mr. M. Anbarasan and the Management of M/s. The Gomathy Mills (P) Ltd., Veeravanallur and their Spinning Master Mr. E. Sankara Kutralam for providing the required facilities and assistance to test the yarn samples in their works.

He is thankful to Dr. S. Jayaraman, Joint Director and Mr. M. Viswanathan, Deputy Director of Fluid Control Research Institute, Kanjikode for facilitating a part of investigation work in their laboratory.

He thanks profusely his colleagues Prof. S. Rudramurthy and Mr. T. Prabhu of Department of Mechanical Engineering, Prof. S. Rajasekaran of Department of Civil Engineering, and A. N. Sai Krishnan, M. Vijayan and A. Bharathkumar of Department of Apparel Technology for their valuable help and assistance and all his colleagues in the Department of Textile Technology for their moral support.

He is grateful to his wife Mrs. R. Uma Maheswari and daughter Miss. R. Yagnalakshmi for their unstinted support and continuous assistance rendered during the course of the work, without which this research work would not have been completed successfully.
He expresses his profound thanks to his brother Mr. A.K. Somayajulu, Proprietor, Sree Yagnalakshmi Enterprises, Chennai and his family for providing logistic support in the crucial stage of execution of the thesis work.

Finally the author expresses his gratitude and indebtedness to his father Mr. G.K. Subramanian, Correspondent, Sri Sailapathy School, Alwarkurichi for all the prayers offered and blessings extended throughout his career.

The author dedicates this thesis in memory of his mother late Mrs. K. Yagnalakshmi whose soul is a source of wishes and blessings to him.
