ACKNOWLEDGEMENT

The author expresses his deep gratitude to his research guide Dr. S.S.Ramakrishnan, Professor Emeritus, Department of Metallurgical Engineering, PSG College of Technology for his guidance and encouragement throughout this work. He is highly thankful to the management of PSG College of Technology for providing the facilities to carry out this research. His thanks are due to Prof.S.Vijayarangan, Principal, PSG College of Technology, for his support.

The author is grateful to Dr.P.C.Angelo, Head, Metals Testing and Research Centre for his kind guidance, encouragement and assistance at all stages of this work. He thanks Prof.P.Radakrishnan the former Principal of PSG College of Technology and presently Vice Chancellor at Vellore Institute of Technology, for his encouragement. Sincere thanks are also to Prof.R.Soundararajan, former Head of the Department of Metallurgical Engineering for his moral support and guidance.

The author places on records his sincere thanks to Dr.P.Shankar, Scientist, Metallurgy and Materials Group, IGCAR, Kalpakkam for his technical suggestions and help in carrying out some of the tests for this work.

The author expresses his heart-felt thanks to his colleagues Dr.P.Gopalakrishnan, the present Head of the Department (I/C), Dr.S.S.Mohamed Nazirudeen, Dr.V.Balusamy, Dr.R.Subramanian, Mr.B.Ravisankar and Mr.J.Krishnamoorthy for their constant encouragement, helpful suggestions and assistance during the course of this work. The author is thankful to M/s. A.Chandrasekar, I.Madalaimuthu, K.Murugan, J.Anburaj, P.Sundarapandian, K.Thillairajan, T.Thirumalai, C.Venkatesh and Sureshkumar for their timely support in carrying out the experimental work as well as in the preparation of this thesis. He is thankful to Mr.S.Kumarasamy and Ms.K.Hemalatha for their logistic support for this research work.
The author expresses his eternal indebtedness to his father Sri.A.S.Mahadevan. The author wishes to record his profound gratitude to his wife Mrs.S.Mallika for her continuous support and constant encouragement throughout this research. Thanks are also due to his elder son Mr.S.Yuvaraj and daughter-in-law Mrs.Vinodhini for their encouragements. He specially thanks his younger son Mr. S.Sudhakar who was supportive for preparing the computerised print out of the thesis as well as accompanying him to office during the entire course of this work.
