ACKNOWLEDGEMENT

The author places on record his indebtedness to his supervisor Dr. L.S. Jayagopal, Professor, Department of Civil Engineering, PSG College of Technology for his valuable guidance and continuous encouragement throughout this research work.

The author wishes to express his profound gratitude to the Management of PSG College of Technology, Dr. P. Radhakrishnan, Principal, PSG College of Technology and Dr. S. Subramanyan, former Principal, PSG College of Technology, presently Vice-Chancellor, Bharathiar University for the facilities provided and for their personal interest.

The author expresses his thanks to Dr. S. Rajasekaran, Head, Department of Civil Engineering, PSG College of Technology for the keen interest shown and valuable suggestions provided.

Encouragement and helpful reviews and suggestions received from his former Professors at PSG College of Technology, Prof. A.N. Lakshmanan (former Head) and Prof. C. Shanmugam are acknowledged with thanks.
The author would like to express his appreciation to his colleagues Dr. N. Arunachalam, Dr. S.C. Natesan, Mr. S. Muller, Mr. J.V. Ramasamy, Mr. R. Ragupathy, and Mr. G. Sankarasubramanian who contributed to the development of this work in many ways.

The author also thanks Dr. P. Aravindan, Professor and Head, Department of Mechanical and Production Engineering, PSG College of Technology and the members of the Entrepreneurship Development Cell for the assistance rendered in the computer work.

The generous and enthusiastic help and co-operation given by the many graduate students and non-teaching staff of the Structures Laboratory in carrying out the experimental work are gratefully acknowledged.

Appreciation is also due to Mr. M. Solaiappan for tracing the figures and M/s. Infotek Computer Services, Coimbatore for typing and compiling the manuscript.
