ACKNOWLEDGEMENT

I express my profound sense of gratitude for my learned and most esteemed teacher Dr. S.L. Agarwal, M.C., F.R.C.S., Professor & Head, Department of General Surgery, M.L.B. Medical College & Hospital, Jhansi, whose canny precision, deep enthusiasm, elegant endeavour and ingenious efforts for the completion of this present work, shall go in the annals of my life as indelible event. His able guidance, constructive and valuable suggestions, criticism and meticulous attention have gone a long way towards the success of this work.

I am emotionally overwhelmed and unable to express my deep sense of gratitude to my esteemed and exalted teacher Dr. R.P. Kala, M.S., Associate Professor, Department of General Surgery, M.L.B. Medical College, Jhansi, whose exemplary dedication, unfathomed knowledge and experience shall remain a constant source of inspiration in my life. I find myself lacking when it comes to choose adequate words to express my gratitude to him.

I am thankful to Dr. Dinesh Pratap, M.S., Asstt. Professor, Department of General Surgery, M.L.B. Medical College, Jhansi, who kept me on my toes throughout the study by his valuable suggestions and criticism.
I am highly obliged to Dr. Rajeev Sinha, M.S.,
Asstt. Professor, Department of General Surgery, M.L.B.
Medical College and Hospital, Jhansi for his great support
and helpful suggestions from time to time.

Though words of appreciation are not needed
for friends, I express my heartfelt thanks to all my
friends and colleagues of the surgery department of this
college for their constant support, encouragement and
help.

I have no words to express my gratitude to my
parents and my wife for their constant moral support in
the dreaded days of hard work and for extending a helpful
hand beyond all limits and expectations.

I am highly grateful to Mr. Vishan Lal,
Librarian, M.L.B. Medical College, Jhansi for his
constant support in collection of literature for this
thesis.

I am also thankful to Mr. K.V. Srivastava for
his meticulous care and painstaking labour in preparing
a neat typescript of the present work.

Dated: 28 June 1991
