Dedicated to my Respected Parents
ACKNOWLEDGEMENT

I would like to acknowledge the people who supported and otherwise contributed throughout the course of this work.

First of all I express my deep sense of overwhelming gratitude and immense respect to GOD who blessed me with spiritual support at each and every stage of this work.

I express my gratitude to my supervisor Dr. J. K. Sharma, Professor & Head, Department of Physics, M.M.University Mullana, who shared with me his invaluable experience, for guidance, support and encouragement to do this work. He has patiently guided me through the steps of my dissertation work.

I am indebted to Dr. Vandana Sharma, Professor, Department of Physics, M.M.University Mullana for constant encouragement since my joining to this institute. I am highly thankful to Dr. Sukhjeet Singh, Department of Physics, M.M.University Mullana for being so continuously supportive of this work, and for the extensive involvement and feedback, throughout the course.

I also especially thank Mr. Sushil Kumar, Research Scholar, Department of Physics, M.M.University Mullana for his valuable contribution to the research work presented in this thesis and to my general experience at Theoretical Nuclear Research laboratory, Department of Physics, M.M.University Mullana.

I would like to mention, among the other from whom I got a great deal of information, suggestions and help, Dr. Petrica Buganu, University of Bucharest, Romania (with whom I worked on Collective model during our Italy visit and learned a lot of useful stuff). Special thanks to the Prof. Baha Balantekin, University of Wisconsin, Madison (USA) and Nuclear Physics Group, Lund Institute of Technology, Sweden for their kind support during ECT* Doctoral Training Programme 2011 held at European Center for Theoretical Studies in Nuclear Physics and Related Areas, Trento Italy from April 11th to June 17th, 2011, which gave initial push to my research. I am extremely grateful Dr. Georges Ripka, Saclay France, for useful discussion during my Italy Visit.

I am very thankful to my parents, family members and close friends for their constant love, support and words of wisdom. I appreciate it more than they know.
I am also thankful to all faculty members, research scholars, technical and non teaching staff of the Department of Physics, M.M.University Mullana for their kind support.

I am really at a loss of words to express my gratitude to my siblings Manpreet Kaur Dhindsa and Sandeep Singh Dhindsa and my friends Rajeev Bhatia (Ontario, Canada), Sumit Bhatia (PMB, Qadian, Punjab), Pardeep Kumar (IIT Ropar, Punjab), Baldeep Kaur (Thapar University Patiala, Punjab), Dr. Raj Kumar (Kothari Fellow, Thapar University Patiala, Punjab), Vishvas Pandey (Ghent University Belgium), Huma Haider (AMU, Aligarh), Chandersekar Subramaniyam (IIT, Madras) for their help and encouragement they offered all through the course of work.

(Jagjit Singh)
