Emotions are not always easy to express. Words are sometimes hard to find when you are trying to say thanks for something priceless as loving criticism, considerate helpfulness and valuable guidance. Yet, facts must be evidently acknowledged and honest thankfulness unequivocally stated. This is what I have humbly tried to reveal here.

It was my proud privilege to have been associated with and remain under the constant vigilance of Prof. P.K. Dabral, M.S. Head of the Department of Orthopaedics, M.L.B. Medical College, Jhansi, throughout the period of my working on this project. The joy and experience of working under his guidance is really unparallel. His fatherly affection, invaluable suggestions, constructive criticisms, meticulous attention to details and never to be matched expertise has been primarily, if not singularly, responsible for presentation of this work in its present form. He has been a constant source of encouragement and guidance in moments of my despair and it is virtually impossible to express in words my deep sense of indebtedness and profound gratitude for him.

I must express my grateful thanks to Dr. Anurag, M.S. Lecturer, Department of Orthopaedics for his expert guidance. His keen attention and interest in day to day progress with wise suggestions and advice regarding the intricacies of this work were a source of great encouragement for me.
My feelings of sincere gratefulness are due to my esteemed teachers, Dr. R.P. Tripathi, M.S., Reader Department of Orthopaedics and Dr. D.K. Gupta, M.S., Lecturer, Department of Orthopaedics for their constant inspiration and ever helping attitude throughout this study.

I am highly obliged to Mr. B.D. Mathur, Statistician-cum-Lecturer, M.L.B. Medical College, Jhansi for his kind help in statistical calculations.

Thanks to Dr. A.C. Rai, Chief Medical Officer, Dr. S.C. Gupta, Orthopaedic Surgeon for helping me a lot during studying the polio patients at District Hospital, Jhansi. A word of thanks to peon Shri Mannu Lal is overdue.

Although, friends perhaps do not need these words, but I shall be failing in my duty by not mentioning them. My numerous colleagues - both departmental and otherwise, especially Dr. R.K. Chawla, Dr. Sunil Gupta and Dr. Kamal Kant, all helped me at various stages of this work. Their help is unaccountable.

I convey my regards and best wishes to my family and parents whose sacrifice and insight made it possible for me to fulfil the task.

My dear wife, Shashi, deserves more than appreciation. She helped me a lot in completion of this work by creating favourable atmosphere and by encouraging me constantly.

I extend special thanks to Mr. Vishan Lal, Librarian and his staff for their help and promptness in sorting out the text.
The manuscript has been typed by Shri Siddiqu Ali. I am sincerely thankful to him for his untiring efforts in putting this work neatly in black and white.

I feel emotionally involved with the patients of poliomyelitis. May the almighty bless my future career so that I may be able to allay the suffering of such patients.
