ACKNOWLEDGEMENT
The best possible way to begin a study is to start it with acknowledging the efforts of the people who have been instrumental in the smooth and meaningful conduction of the same. So I take the opportunity to mention the name of some of those who have really helped me in my work. Without their help it was impossible for me to complete the study in the given time and of any quality.

I would like to thank my respected teacher Dr. G.D. Gupta M.S., D.O.M.S. who is an associate professor and head of the Ophthalmology department in the M.L.B. Medical College, Jhansi. The present work at every stage bears the impressions of his invaluable suggestions, concrete guidance, constructive criticism and meticulous attention.

I am grateful to Dr. B.S. Jain, associate professor in the Ophthalmology dept. for his expert guidance, wise suggestions and advise rendered to me whenever asked for.

Respected and sincere gratitudes are reserved for my chief supervisor Dr. V.K. Misuriya, assistant professor in this dept. His most precious help, keen interest, valuable suggestions and constant encouragement to mould this work have been extremely fascinating in the successful completion of this work.
I am most sincerely thankful to my senior Dr. Chitra Singh and my colleagues Dr. Anurag Garg and Dr. Saurabh Shukla for their valuable support throughout this work.

I am also thankful to my wife, Ruchi Paliwal, who took out time from her busy schedule to perform this neat and meticulous work of typing.

Finally I would like to thank all those whose names could not be mentioned due to lack of space.

(KAPIL PALIwal)
