LIST OF TABLES

1. Hygrographical data........................................................................................................................................266
2. Overall number of isolates, percent frequency of occurrence and percent relative abundance of marine fungi along west coast of India .........................................................267
3. Distribution of marine fungi along west coast of India .............................................................270
4. Comparison of percent frequency of occurrence of marine fungi along west coast of India ........................................................................................................................................274
5. Comparison of percent relative abundance of marine fungi along west coast of India ........................................................................................................................................278
6. Percent frequency of occurrence and percent relative abundance of marine fungi from Kanyakumari [Tamil Nadu] .................................................................281
7. Percent frequency of occurrence and percent relative abundance of marine fungi from Kerala ........................................................................................................................................283
8. Percent frequency of occurrence and percent relative abundance of marine fungi from Mahe [Puducherry] .................................................................................................................................287
9. Percent frequency of occurrence and percent relative abundance of marine fungi from Lakshadweep Islands ........................................................................................................................................289
10. Percent frequency of occurrence and percent relative abundance of marine fungi from Karnataka ........................................................................................................................................290
11. Percent frequency of occurrence and percent relative abundance of marine fungi from Goa ........................................................................................................................................291
12. Percent frequency of occurrence and percent relative abundance of marine fungi from Maharashtra ........................................................................................................................................293
13. Percent frequency of occurrence and percent relative abundance of marine fungi from Gujarat ........................................................................................................................................295
14. Distribution of marine fungi in coastal wetlands along west coast of India ........................................................................................................................................296
15. Comparison of percent frequency of occurrence of marine fungi in various coastal wetlands ........................................................................................................................................299
16. Comparison of percent relative abundance of marine fungi in various coastal wetlands ........................................................................................................................................302

33. Percent frequency of occurrence and percent relative abundance of marine fungi from mangrove and beach habitats of Karnataka........334
34. Percent frequency of occurrence and percent relative abundance of marine fungi from beach and mangrove habitats of Goa .................336
35. Percent frequency of occurrence and percent relative abundance of marine fungi from beach and mangrove ecosystem of Maharashtra..338
36. Distribution of marine fungi on various substrates along west coast of India ..................................................................................340
37. Comparison of percent frequency of occurrence of marine fungi on various substrates along west coast of India.................................344
38. Comparison of percent relative abundance of marine fungi on various substrates along west coast of India ...........................................348
49. Percent frequency of occurrence and percent relative abundance of marine fungi on algae [algicolous marine fungi] from west coast of India ..................................................................................352
40. Percent frequency of occurrence and percent relative abundance of marine fungi on sand buried wood [arenicolous marine fungi] from west coast of India ..................................................................................353
41. Percent frequency of occurrence and percent relative abundance of marine fungi on wood trapped between rocks..............................354
42. Percent frequency of occurrence and percent relative abundance of marine fungi on leaves [foliicolous marine fungi] from west coast of India ..................................................................................355
43. Percent frequency of occurrence and percent relative abundance of marine fungi from animal substrates along west coast of India ......356
44. Percent frequency of occurrence and percent relative abundance of marine fungi from corals..................................................................357
45. Percent frequency of occurrence and percent relative abundance of marine fungi from sea foam..........................................................358
46. Percent frequency of occurrence and percent relative abundance of marine fungi on angiosperm seeds ..............................................359
47. Percent frequency of occurrence and percent relative abundance of marine fungi on wood [lignicolous marine fungi] from west coast of India ..................................................................................360
48. Distribution of marine fungi on decaying plant hosts along west coast of India .......................................................... 363

49. Comparison of percent frequency of occurrence of marine fungi on decaying plant hosts along west coast of India .......................................................... 366

50. Comparison of percent relative abundance of marine fungi on decaying plant hosts along west coast of India .......................................................... 368

51. Percent frequency of occurrence and percent relative abundance of marine fungi on Acanthus ilicifolius .......................................................... 370

52. Percent frequency of occurrence and percent relative abundance of marine fungi from Avicennia .......................................................... 371

53. Percent frequency of occurrence and percent relative abundance of marine fungi from Bruguiera .......................................................... 373

54. Percent frequency of occurrence and percent relative abundance of marine fungi on Kandelia candel .......................................................... 374

55. Percent frequency of occurrence and percent relative abundance of marine fungi from Rhizophora .......................................................... 375

56. Percent frequency of occurrence and percent relative abundance of marine fungi from Pteridophytes .......................................................... 376

57. Percent frequency of occurrence and percent relative abundance of marine fungi from Acrostichum .......................................................... 376

58. Percent frequency of occurrence and percent relative abundance of marine fungi on Salvinia .......................................................... 377

59. Percent frequency of occurrence and percent relative abundance of marine fungi on bamboo .......................................................... 377

60. Percent frequency of occurrence and percent relative abundance of marine fungi on Cocos nucifera .......................................................... 378

61. Percent frequency of occurrence and percent relative abundance of marine fungi from Spartina (Salt marsh) .......................................................... 379

62. Comparison of percent frequency of occurrence and percent relative abundance of marine fungi in different seasons along west coast of India .......................................................... 380

63. Average isolates of marine fungi per sample along west coast of India .......................................................... 384

64. Average isolates of marine fungi per sample in coastal wetlands of west coast of India .......................................................... 384
