This work is a synergistic effort of various people. I am grateful for the inspiration of many significant people who have contributed to make my work successful. I would like to thank all people who have helped and inspired me during my doctoral study.

I would like to express my gratitude to my parents who have contributed significantly in motivating me to pursue my dream of Ph.D., for their unflagging love and support throughout my life especially my mother who is no longer with me, she is forever remembered. I am sure she shares my joy and happiness in heaven.

I sincerely thank Dr. Sushma Mehrotra who has been a guide and mentor. She gave me freedom to apply my academic knowledge and supported my vision. Thank you doesn’t seem sufficient but it is said with appreciation and respect. One simply could not wish for a better and friendlier supervisor.

My deepest gratitude goes to my girls, Zitin and Sombul, who for some heavenly reason stood by my temper tantrums and went through their mother’s whimpers quietly and silently and from day one, saw me graduating in a way, proxy for my mother.

Thanks be to God for my life through all tests in the past four years. You have made my life more bountiful. May your name be exalted, honored, and glorified.

I finish with a final silence of gratitude for my life.
