

LIST OF TABLES

- Table 1 Protein quality of pulses
- Table 2 Aminoacid composition (mg/100g of protein) of protein from different sources
- Table 3 Share of pulses in nutrition supply.
- Table 4 Area of production and productivity of pulses in India
- Table 5 Number of released varieties developed through mutation breeding in legumes
- Table 6 Details of mutagenic treatments given to chickpea seeds.
- Table 7 Effect of EMS and MMS on seed germination, plant survival and pollen fertility in M₁ generation of chickpea (*Cicer arietinum* L.) var. GNG-469.
- Table 8 Effect of EMS and MMS on seed germination, plant survival and pollen fertility in M₁ generation of chickpea (*Cicer arietinum* L.) Var. BG-372.
- Table 9 Effect of EMS and MMS on seedling height (cm) in chickpea (*Cicer arietinum* L.) var. GNG-469.
- Table 10 Effect of EMS and MMS on seedling height (cm) in chickpea (*Cicer arietinum* L.) var. BG-372.
- Table 11 Meiotic abnormalities induced by EMS and MMS in M₁ generation of chickpea (*Cicer arietinum* L.) var. GNG-469.
- Table 12 Meiotic abnormalities induced by EMS and MMS in M₁ generation of chickpea (*Cicer arietinum* L.) var. BG-372.
- Table 13 Estimates of mean values (\bar{x}) and co-efficient of variations (CV%) for different quantitative characters in M₁ generation of chickpea (*Cicer arietinum* L.) var. GNG-469 treated with EMS.
- Table 14 Estimates of mean values (\bar{x}) and co-efficient of variations

(CV%) for different quantitative characters in M₁ generation of chickpea (*Cicer arietinum* L.) var. GNG-469 treated with MMS.

Table-15 Estimates of mean values (\bar{x}) and co-efficient of variations (CV%) for different quantitative characters in M₁ generation of chickpea (*Cicer arietinum* L.) var. BG-372 treated with EMS.

Table 16 Estimates of mean values (\bar{x}) and co-efficient of variations (CV%) for different quantitative characters in M₁ generation of chickpea (*Cicer arietinum* L.) var. BG-372 treated with MMS.

Table 17 Comparative effect of EMS and MMS on mean values (\bar{x}) and co-efficient of variations (CV%) in M₁ generations of chickpea (*Cicer arietinum* L.) var. GNG-469.

Table 18 Comparative effect of EMS and MMS on mean values (\bar{x}) and co-efficient of variations (CV%) in M₁ generations of chickpea (*Cicer arietinum* L.) var. BG-372.
