

CONTENT		
CHAPTER	TITLE	PAGE NO.
I.	INTRODUCTION	
1. A.	General	1
1. B.	Quadridentate Chelating Agents	2
1. C.	Metal Chelates containing ONNO donor sequence	4
1.D.	Present Work	33
	REFERENCES	35
II.	SYNTHESIS AND CHARACTERIZATION OF SOME TETRADENTATE SCHIFF BASES DERIVED FROM 4-BENZOYL-3-METHYL-1-[4'-NITROPHENYL]-2-PYRAZOLIN-5-ONE WITH SOME DIAMINES AND THEIR METAL CHELATES	
2. A.	Present work	50
2. B.	Materials	55
2. C.	Experimental	55
2. D.	Synthesis and characterization of tetradentate Schiff base ligands	56
2. D.1	Preparation of 3-methyl-1-[4'-nitrophenyl]-2-pyrazolin-5-one.	56
2. D.2	Preparation of 4-Benzoyl-3-methyl-1-[4'-nitrophenyl]-2-pyrazolin-5-one.	57
2. D.3	Preparation of the tetradentate Schiff bases.	58
2. E.	Characterization of Tetradentate Schiff bases Derived from 4-Benzoyl-3-methyl-1-[4'-nitrophenyl]-2-pyrazolin-5-one with diamine.	58

2.F.	Synthesis of the Chelates	63
	REFERENCES	64
III.	EXPERIMENTAL TECHNIQUES	
3. A.	General	65
3. B.	Elemental analysis	66
3. C.	Electrical Conductivity measurements	66
3. D.	Magnetic susceptibility measurements	66
3. E.	Spectrophotometric measurements	68
3. F.	Thermogravimetric analysis (TGA)	69
	REFERENCES	70
IV.	RESULT AND DISCUSSION	
4. A.	Present work	71
4. B.	General	72
4. C.	Infrared Spectral Studies	73
4. D.	Electronic Spectral Studies	78
	VO(II) Chelates	78
	Cr(III) Chelates	80
	Mn(II) Chelates	81
	Fe(II) Chelates	82
	Fe(III) Chelates	83
	Co(II) Chelates	83
	Ni(II) Chelates	86
	Cu(II) Chelates	87
	Zn(II) Chelates	88
4. E.	Magnetic Properties	89
4. F.	Thermogravimetric analysis (TGA)	89
	REFERENCES	98
V.	ANTIMICROBIAL STUDIES	
5. A.	General	112
5. B.	Studies on antimicrobial activities	114

5. C.	Present work	117
5. D.	Experimental	117
5. D.1	Materials	117
5. D.2	Micro Organisms	117
5. D.3	Media Composition	118
5. D.4	Inoculum Preparation	119
5. D.5	Antimicrobial Assay	119
5. E.	Results and discussion	120
	Summary	123
	REFERENCES	124
	SUMMARY	128
