One looks back with appreciation to the brilliant teachers, but with gratitude to those who touched our human feelings. The curriculum is so much necessary raw material, but warmth is the vital element for the growing plant and for the soul of the child.

— Carl Jung

I have learnt a lot of my life’s lessons from my parents, specially my father Gh. Mohammad Dar. One of the most important ingredients that goes into making a good researcher is curiosity. My father has contributed a lot towards increasing my curiosity and the spirit to seek a deep understanding of the world around me. He always encouraged me. Special thanks to my mother Fatima Banoo whose love is boundless love and whose care is greedless. I would like to thank my family members, my brother Mohammad Tawseef, and my sister who always backed my decisions and provided all kinds of support moral as well as financial. It was their love, care and patience which inspired me to carry on. I lost my courage at several steps but they helped me stand, face and overcome my problems. I thank them for always being there for me.

I would also like to thank all my friends for the great time I have always had with them. Apart from the fun, some of my friends have also been a great source of learning and inspiration. Special thanks to Sourabh Dixit for providing me a courage at several steps, also helped me stand, face and overcome my problems.

I would also like to thank Shishir Doorwar, Mir Junaid, Irshad, Dr. Makhmoor, Muzamil, Musadiq, Bishnu, Sumbool, Davood, Shakeel, Mudasir, Muzafar, Younus, Farooq, Shahnawaz, Rouf, Jhangir and Naseer for their calibration and support during this piece of work. There are, of course, many others whom I would like to mention, but the list is too long and the space too short. I will always cherish the moments I have shared with all my friends. Thanks a lot to one and all.
