

INDEX

CHAPTER – I: Origin of Present Work, Literature Survey 1-36

| | | |
|-----|--|----|
| 1.1 | Introduction | 1 |
| 1.2 | Complex Formation Equilibria & Dependence of Stabilities of Mixed-Ligand Complexes | 2 |
| 1.3 | Importance of Stability Complex Equilibria | 7 |
| 1.4 | Evidences for Complex Formation in Solution | 8 |
| 1.5 | Mixed-Ligand Complexes of Transition Metal/Lanthanides | 8 |
| 1.6 | Literature Survey | 11 |
| | References | 20 |

CHAPTER – II: Objectives of the Present Work 37-65

| | | |
|-----|---|----|
| 2.1 | Introduction | 37 |
| 2.2 | Literature Survey in Context to Present Work | 37 |
| 2.3 | Ligands | 41 |
| 2.4 | Experimental | 46 |
| | 2.4.1 Material & Methods | 46 |
| | 2.4.2 Instruments Used | 48 |
| 2.5 | Method of Calculations | 51 |
| | 2.5.1 Determination of pK Values | 51 |
| | 2.5.2 Determination of Percentage Dissociation of the Ligands | 53 |
| | 2.5.3 Formation Constants of Hetero-Ligand Complexes | 54 |
| | 2.5.4 Thermodynamic Parameters | 56 |
| | 2.5.5 Astatistical Parameters | 57 |
| | 2.5.6 Percentage Relative Astatistical Stabilization | 57 |
| | 2.5.7 Ionisation Constants of Ligands | 57 |
| | 2.5.8 Percentage Dissociation of Second Carboxylic Proton | 58 |
| | References | 61 |

CHAPTER – III: Analytical Techniques Used to Study

| | | |
|-----|---|---------------|
| | Equillibria and Results Obtained | 66-135 |
| 3.1 | Introduction | 66 |
| 3.2 | Experimental | 67 |
| 3.3 | Titration Setup | 67 |
| | 3.3.1 Binary Systems | 68 |
| | 3.3.2 Ternary Systems | 68 |
| | 3.3.3 Quaternary Systems | 69 |
| 3.4 | Conformation of Complex Formation | 70 |
| | References | 133 |

CHAPTER – IV: Tabulation & Presentation of Results &

| | | |
|-----|--|----------------|
| | Coordination | 136-170 |
| 4.1 | Importance of Complex Equillibria | 136 |
| 4.2 | Calculations of Stability constants of Binary, Ternary & Quaternary Complexes by Considering Simultaneous Equillibria. | 137 |
| | 4.2.1 Metal-Ligand Stability Constants of Binary (1:1) Complexes | 141 |
| | 4.2.2 Metal-Ligand Stability Constants of Ternary (1:1:1) Complexes | 142 |
| | 4.2.3 Metal-Ligand Stability Constants of Quaternary (1:1:1:1) Complexes | 149 |
| | 4.2.4 Thermodynamic Parameters | 150 |
| | 4.2.5 Calculated Values of Astatistical Factors in Mixed-Ligand Complex | 150 |
| 4.3 | Influence of Ionic Strength on Complex Formation Equillibria | 158 |
| 4.4 | Results & Discussion | 167 |
| | References | 169 |

CHAPTER – V: Conclusion

171-188

5.1 Conclusion

171
