Acknowledgement

First and foremost I find myself wordless to express my deep sense of gratitude and sincere respects with profound indebtedness towards my beloved guide Dr.B.H.Pawar, Professor and Head of Department, Physics, Laser and Crystal growth Research Laboratory, Sant. Gadge Baba Amravati University Amravati for having introduced me in the fascinating field of “Crystal Growth and Laser” for his inspiring guidance, scholarly valuable advice and motivation, constant encouragement to carry out the research work and for his being dynamic and mesmerizing one. I indeed feel proud of the opportunity to study under him and enlightening and enriching experience. I am greatly indebted to him and desire to remain so throughout my life as he has become the source of inspiration.

I would specially express my sincere thanks and indebtedness to Dr. M.D. Shirsat, Optoelectronics and Senior Research Laboratory, Department of physics, Dr. Babasaheb Ambedkar Marathwada University, Aurangabad whose support has provided important information on synthesis characterization and his encouragement were vital for the completion of the present research report.

I would like to express my sincere thanks extremely grateful to Dr.D.V.Meshram, Head of Department of Physics, Vaidyanath College, Parli-V., for his motivation and constant encouragement and great interest envisaged by him throughout the period of this work.

I am sincerely express my thanks to Mr.S.RajMohd (Rtd.HOD of Physics) and mother like Mrs. Shmeemara RajMohd Shaikh (National awardees teacher, 1999) for their moral support and providing me all the required research methodology.

I express my gratefulness to the Hon’ble Gopinathraoji Munde, (M.L.A., Former. Dy.Chief Minister Govt.of Maharashtra & President, J.E.Society, Parli V.), Mr.Dattappa Itke (Secretary, J.E.
