Coastal line is a gift to a country. Navigation is one of the cheapest and oldest modes of transport system. It reduces the traffic congestion and burden on the roads. The Maharashtra has tremendous potentials of developing the small ports on the coastal line. The line is estimated to 720 km. These issues were discussed with Captain Dilip Bhatkar, the owner of Marine Syndicate Pvt Ltd.Co in Ratnagiri who had inspired me to think of doing some work on the issues. This has been further discussed with my research Supervisor Dr. V. B. Jugale. He shaped the topic by creating a problem and journey of my research begun. I took this opportunity to express my deep gratitude to the persons who have encouraged and motivated me to go for the problem.

The first and foremost, let me thank my supervisor Dr. V. B. Jugale, Professor, Department Of Economics, Shivaji University Kolhapur who has taught me and always motivated me through the capacities, joy and enthusiasm he is having. I appreciate his contribution in devoting so much time and taking so much strain to complete this research.

I would like to express my sincere thanks Dr. V. B. Kakade Head of the Department of Economics, Shivaji University Kolhapur for his valuable suggestions and constructive comments on the problem.

I owe special gratitude to Capt Dilip Bhatkar, Director Marine Syndicate Ratnagiri for moral support and solving the technical problems in the marine industry. The Patience he has shown to support this work at each stage is an encouragement to me.

I would also like to express my sincere thanks to Capt. Ingale Port Officer Ratnagiri for his congruent support, encouragement and help to complete this work.
