ACKNOWLEDGEMENTS

I express my sincere regards and profound gratitude to my guide, Dr. V.S. Lomte, Professor, Department of Environmental Sciences, Marathwada University, Aurangabad under whose valuable guidance, sound criticism, suggestions, crisp comments and constant encouragements, the present work was carried out.

My thanks are due to Dr. S.B. Wagh, Head, Department of Environmental Sciences, for providing facilities for carrying out this work. I sincerely thank Prof. R. Nagabhushanam for providing proper perspective and encouragement.

I owe the sense of gratitude to Dr. U.H. Mane, Dr. D.H. Thorat, Dr. S.P. Zambre, Mr. S.K. Aher, for their well wishes and constant encouragement.

I am specially thankful to Mr. Rao, H.R. (J.S.O., Central Laboratory, M.P.C. Board, New Bombay) for providing facilities, Mr. C.H.S. Bhat (Principal, Kendriya Vidyalaya, Aurangabad), Mr. P.P. Nandusekar (R.O., M.P.C. Board, Aurangabad), Mr. A.D. Saraf (R.O., M.P.C. Board, Nashik), Mr. M.M. Deshmukh for constant help throughout the tenure of this work.

Thanks are also due to valuable assistance during the research work of my colleagues Dr. M.B. Mule, Mr. Prakash Munde, Miss Jadhav, and friends, Satish Kulkarni, SambajiRao, Anil Bidve Anjan Sawle, Radhakrishna Pandit, Mr. V.S. Valse and A.R. Salunke.
It is my divine pleasure to record my indebtedness to my brothers, mother, sisters, for their immense patience, encouragement and understanding during the period of my study.

Lastly I wish to express my thanks to Nitin Nikam for typing this thesis with keen and neverfailing interest.

Department of Environmental Sciences, Marathwada University, Aurangabad - 431 004

(Mr. Y. B. Sontakke)
