Acknowledgement

The author is indebted to research supervisors, Dr.K.Ramachandra, Professor of Mechanical Engineering, R.V.College of Engineering, Bangalore and Dr.K.Govindarajulu, Professor of Mechanical Engineering, Director of Evaluation, J.N.T.University, Anantapur and would like to express his sincere appreciation and gratitude to them for their valuable guidance, help and encouragement during the process of this research work and in the preparation of this thesis. Without their guidance and support this work would have been not possible.

The author also would like to offer his sincere thanks to J.N.T.U., Anantapur for enabling him to do research. The author would also like to express his sincere gratitude to J.N.T.U.H., Hyderabad. He would like to thank R & D Cells of JNTUA and JNTUH.

The author would like to offer his sincere gratitude to Dr.Ing.B.V.A.Rao, Retired Professor, IIT Madras for his invaluable technical guidance and motivation. The author is indebted to Dr.S.C.Sharma, Vice-Chancellor, Tumkur University for his invaluable support and advice throughout the course of this research.

The author is grateful to Head of the Department and all the Professors of Mechanical Engineering, J.N.T.U.A., Anantapur and Head & Professors of Mechanical Engineering, R.V. College of Engineering, Bangalore for their constant help and support in completing this work. The author is grateful to the faculty and the
staff of the Department of Mechanical Engineering, R.V. College of Engineering, Bangalore; Department of Mechanical Engineering, J.N.T.U.C.E., Anantapur and Administrative wing of the JNTUA, Anantapur who provided both technical and administrative assistance for this research work.

The author wishes to extend his thanks to his parents, wife, children, brother and friends who supported constantly throughout this endeavor.
