ACKNOWLEDGEMENTS

I am very grateful to my guide Dr. R.K. SINGH, Professor, Department of Prosthodontics, College of Dental Surgery, BP Koirala Institute of Health Sciences, Dharan, Nepal. He was a constant source of inspiration and his excellent academic qualities had helped me attain my goals and objectives. I am thankful to him for his tireless support, encouragement and his words of wisdom which have helped me not only in completing this project but in making me a better human being.

I am most thankful to Dr. B.P. Das, Vice-Chancellor, BP Koirala Institute of Health Sciences, Dharan, Nepal for his constant encouragement and innovative ideas. He has shown keen interest in research projects and has supported the cause. His great administrative skills have helped in making this institute a hub of research in South East Asia. His constant support to me and guidance had made this dream of mine come true.

I am very grateful to Dr. Pramita Suwal, Associate Professor & Head, Department of Prosthodontics, College of Dental Surgery, BP Koirala Institute of Health Sciences, Dharan, Nepal. Her valuable guidance for almost everything has not only helped me in this dissertation but all along my stay in Nepal.

I am very thankful to Dr. Roopa Rajbhandari Singh, Professor, Department of Pediatrics, BP Koirala Institute of Health Sciences, Dharan, Nepal for her tireless support.

Some people hold very important places in one’s life, two such people who have touched my life are Dr. Deepak Kumar Roy and Dr. Basant Shah. They are best of my friends, students,
juniors. Their support has made things easier and my way clear. If I had achieved something their support and hard work is behind that.

I would like to thank Mrs. Kunti Poudel, who is like my second mother and always encouraged and blessed me during this work.

I would also like to extend my thanks to Dr. Ashok Ayer, who helped me in conducting the research.

I would also like to extend my gratitude to Mr. DD Baral, Assistant Professor, School of community Medicine & Public Health, BP Koirala Institute of Health sciences, Dharan, Nepal for his statistical analysis required for this dissertation.

My parents have stood by me in every walk of like and this acknowledgement is not complete without their mention. I would like to acknowledge my dear sister Khushboo, she is a source of inspiration and had always guided me as she is the first doctorate holder in the family and I am following her footsteps. My Wife has always shown her commitment and support for me in whatever I pursue and I am thankful to her for her patience.

I would also like to thank my colleagues, my juniors and non teaching staff of Department of Orthodontics, College of Dental Surgery, BP Koirala Institute of Health sciences, Dharan, Nepal for their help in compiling this dissertation.
