ACKNOWLEDGEMENT

I am deeply indebted to Dr. K. Ganesan, M.Sc., Ph.D., Reader and Head, Department of Physics, T.B.M.L., College, Porayar, for suggesting the problem, Scientific freedom, Magnanimous support, Scholarly advice, guidance and constant encouragement throughout the study and for critically going through the manuscript.

I thank the Rt. Rev. T. Aruldoss, Bishop of Tranquebar and Secretary of T.B.M.L. College, Porayar for his prayers and blessings, and Dr. G. John Raja, Administrator, for his whole hearted support.

My sincere thanks to Dr. G. Jonas Gunasekaran, M.Sc., M.Phil., B.Ed., Ph.D., Principal T.B.M.L. College, Porayar and Magnanimous management for their help and encouragement in various ways throughout the period of my investigation.

I thank Dr. S.B. Kalyanaraman, Prof. and H.O.D. of Physics, Annamalai University and Dr. Neelamegam, Reader in Physics, Shastra College, Thanjavur, members of the Doctoral Committee who have been a source of strength and help in completing my research.

I should thank the university grants commission of India for sanctioning Teacher fellowship under Xth plan to do Ph.D., at T.B.M.L College, Porayar.

I express my sincere thanks to Dr.S.Johnson Jeyakumar, Reader in Physics, T.B.M.L. College, Porayar, my mentor who has been deeply involved in my research work, starting from designing the work, scholarly advice, interpretation of results and critically going through the thesis. In fact, this kind of work would not have been perceived without his unstinted Co-operation and tremendous help.

I should thank from the bottom of my heart to Dr.P.C.Jobe Prabakar, Dr.J. Vedhagiri, and Dr.I. Kartharinal Punithavathy, Readers in the department of Physics who helped a lot during my research endeavour and they deserve a special thanks for all they have done for me academically.

I am very much thankful to Principal, H.O.D. and Staff members of D.G.G.Arts College (Women) Mayiladuthurai and also all the learned professors of various faculties of T.B.M.L.
College, Porayar who encouraged and advice in all my academic activities and personal endeavours.

I express my sincere thank to Dr. S. Asohan, Reader in Zoology, A.V.C. College, Mannampandal for statistical analysis of data, interpretation of results and critically going through the thesis.

I owe my heartfelt thank to Dr. M. Natesan, Senior Scientist, central Electro Chemical Research Institute, Karaikudi, for his able advice and timely suggestions.

I should whole heartedly express my sincere appreciation and gratitude to Prof. George D. Peter, who evinced great personal interest in my thesis work and spared no pains in sharing his valuable knowledge.

I am grateful to Mr. Thomas, Research Scholar, A.V.C. College, Mannampandal and Mr. Chakravarthy, for their assistance in photography and computation work.

The neat execution of work from cover to cover was ably carried out by Mr. K.K. Sridharan of Students Xerox, Mayiladuthurai to whom I say well done and thanks.

I thank my beloved Husband, Children, affectionate parents, in-Laws, brother and sister and family members for their encouragement, care, concern and prayers.

April 2007; Bernice Bennett
