Acknowledgement

On the onset, I would like to express my heartfelt gratitude to my supervisor, Professor A.R. Kidwai who unhesitatingly accepted me as his student when I presented him with my research proposal.

He thereafter, continued to patiently supervise me and guide me in the right direction, without which it would not have been possible for this work to reach the present stage.

A special thanks to my parents whose love and blessings mean everything to me.

Grateful acknowledgement is made to my friends and colleagues for their advice and support.

I am very grateful to my family whose faith in my abilities was my main motivation. Their love encouraged me to work hard and not give up.

I lack words which can express the gratitude owed to my husband, Munawar Haziq, whose unconditional support forms the backbone of this work.
