ACKNOWLEDGEMENTS

Any accomplishment requires the effort of many people and this work is no different and sincerely acknowledge some of the eminent personality who have made a major contribution to its completion.

First, I would like to express my sincere gratitude to Prof. Ravinder Vinayak and Prof. S. D. Vashishtha for their scholarly guidance and encouragement. Throughout the study, Prof. Vashishtha has been a source of inspiration. It is due to his personal interest and initiative that my research work is submitted in the present form. I would also like to appreciate my deep appreciation and gratitude to Prof. Swatantra Kumar for his valuable support and guidance.

I extend my thanks to all the Executives, Managers and officers for providing necessary data, information and also their valuable time in course of interviews and discussions.

There are also a few others whose efforts should be recognized. My deepest thanks go to my staff – Shri Sandwip Kr. Mazumder, Shri Ajit Koley, Shri H. P. Tripathy whose diligent efforts made this work possible.

Lastly, there are some personal acknowledgement that I was to make. Mrs. Arun Rathee missed many hours from her husband. Arpit Rathee, my younger son who typed a few chapters of the thesis very skillfully. They have shown great patience over the past a few years while I worked on the thesis. In some small way, I hope the dedication of this project to them can acknowledge and offset the sacrifice they have made to make.

I give thanks to God for the incredible energy, clarity and support I received in bringing forth this project.

Ranbir Singh Rathee
