ACKNOWLEDGEMENTS

Foremost, I would like to express my sincere gratitude to my Research supervision Dr. S.Raja for the continuous support of my Ph.D study and research, for his patience, motivation, enthusiasm, and immense knowledge. His guidance helped me in all the time of research and writing of this thesis. I could not have imagined having a better advisor and mentor for my Ph.D study.

It gives me immense pleasure and pride to express my deep sense of gratitude and respect for my teacher and guide Dr. K.N. Jayaveera, Professor of chemistry and Head, Jawaharlal Nehru Technological University, Anantapur, Andhra Pradesh, for his ever green expertise and inspiring guidance throughout the period of my work. I am indebted to him for enlightening me on the finer skills of dealing with research problems. He is the one behind giving me a decisive turn and significant boost to my career. I consider myself one of the fortunate people to be associated with him.

I should justify myself by expressing my sincere thanks to my sir’s family especially my grandmother K. Anasuyamma for encouragement throughout my research work. I am very thankful to everyone in this family for giving support to complete this work.

I am taking deep pleasure to put on my hearties gratitude to CH. Venugopal Reddy secretary and correspondent Bharat Institutions for providing the necessary facilities for the research undertaken.

It is my privilege to thank Dr. A. Sunil Kumar Reddy Associate professor, Bharat Institute of pharmacy, Hyderabad for the pragmatic suggestions at times of difficulty, which enabled me in bringing this thesis to the present form.
I am highly obliged to Dr. Yoganandha Reddy Msc. Ph.D Asosicate professor OTRI, anathapur , My Best friends A . ANIL KUMAR ,scientist , aurobindho pharm , Dr. RamKumar Choudhary ,Associate professor, Bharat institute of pharmacy. Andhra Pradesh, for the valuable guidance and useful suggestion during the progress of my work.

Words are not enough to express my thanks to my Beloved father S.Ramachandra and mother Mrs. S.Reddy Subbulamma to whom I owe my very existence. Their blessings and prayers only helped me in reaching this goal. The most part of this work is the opportunity to express my sincere thanks to my better half, Mrs CH.Ramadevi and my brother in law Ch. Srinivasa Rao for their constant help and encouragement.

I express my sincere thanks to K. Sunil Kumar,Assistant professor Department of pharmacology, TRR college of pharmacy for his guidance, invaluable advice given in the pharmacological screening of the synthesized compounds.

I sincerely thanks to IICT, Tarnaka and mr.prashant for providing the IR,H¹NMR and mass spectral data for the synthesized com[pounds carried out in the my research work.

I gratefully thanking to my colleques A.SAMPTH AYAPPA, Y.RAVINDER REDDAY, K.CHANDRA SEKAR REDDY , Thanks are very small words that may not suffice the help. I extended it too professionally and personally to them.

It’s a pleasure to thanks Administrative officer Mr.A.Sehsagiri Rao, Mr.S.Ashok,Lab Assistant; Samba shiva Exam branch member, Librarian Mr. CH. Shekar,Ass.Librarian , for their constant help and in carrying out the research work.
