Acknowledgements

First of all I would like to thank Almighty Allah for giving me enough courage and strength to complete this research work. He blessed me with strength and required passionate ardour to overcome the entire obstacles in the way of this toilsome journey.

With immense pleasure and profound sense of gratitude, I take this opportunity to express my most sincere and whole hearted indebtedness to my supervisor, distinguee Prof (Dr). Mohammad Mobin, Chairman, Department of Applied Chemistry, Zakir Hussain College of Engineering and Technology, AMU, Aligarh, under whose par excellence aegis my Ph.D has been accomplished and who provide me with his valuable academic support, enlightened guidance, constructive criticism, congenial atmosphere and expert suggestion during the entire course of the study. His deep rooted knowledge in research always assisted me at difficult moments while pursuing this research work. In spite of his various scholarly engagements he gave most of his valuable time to my research work. He is a man, who is very generous with time, ideas, advice and critical comments from whom I learned much during the course of present work. I have the honour to avail all the facilities under his disposal de die die in diem adroitly to complete this milestone.

I gratefully acknowledge Dr. M. Z. A. Rafiquee, Associate Professor, Department of Chemistry, King Saud University, Riyadh, Saudi Arabia, for his earnest co-operation, advice, generous help, inspiration, guidance and constant encouragement to get on with my endeavour in completion of this academic venture.
I owe my indebtedness and gratitude to my elder Brother **Kalimullah**, who has been constant source of inspiration for me. He always provided me cooperation, encouragement and valuable suggestion during the entire course of this work.

This study owes much to the painstaking efforts of a host of friends, relatives and admirers. I am indebted to my Lab colleagues **Ms. Hina Shabnam, M. Alam Khan, Sheerin Masroor** and **Uzma** for their helpful attitude and encouragement throughout the tenure of this work.

I owe my sincerest thanks to **Mrs. Nuzhat Madam, Anam and Asra** for providing co-operation encouragement, love and affection at the time of completion of this study.

My deepest gratitude is due to all my family members, especially to my parents, whose patience, encouragement and co-operation have always inspired me to work with dedication, purposefully and in a disciplined manner. Last but not least I am indebted to my younger brother **Adv. Amanullah**, sisters **Nusrat, Shabeena** and **Talat**, Daughter **Fatima and Nephew Yusuf** and **Yasser** for their love, care, encouragement and inspiration throughout my research work and lifting me uphill this phase of life.

I earnestly wish to make a special mention to my husband **Dr. Shahid Eqbal** for his everlasting loving support and encouragement in accomplishing this task.

In the last but not the least I express my deep sense of gratitude from the core of my heart to all my well wishers for their and cooperation, support.

*(Mosarrat Parveen)*
