ACKNOWLEDGEMENT

All praises to the Almighty ALLAH, the most beneficent, the most merciful, who bestowed upon me the courage, patience and strength to embark upon this work and carry it to completion. May your name be exalted, honored and glorified.

It is a privilege to register my abiding sense of obligation to my supervisor Dr. Mohammad Mobin, Professor, Department of Applied Chemistry, Z.H. College of Engineering and Technology, A.M.U., Aligarh, whose able guidance and unstinted encouragement was instrumental in the completion of this thesis. I am extremely thankful to him in every possible way. Without his kind supervision this work would have been a mere dream.

I gratefully acknowledge Dr. M. Z. A. Rafiquee, Associate Professor, Department of Chemistry, King Saud University, Riyadh, Saudi Arabia, for his advice, supervision and crucial contribution which made him a backbone of this research and so to this thesis.

I am thankful to the chairman, Dr. Ali Mohammad, Department of Applied Chemistry, Z.H. College of Engineering and Technology, A.M.U., Aligarh, for providing research facilities.

I earnestly wish to make a special mention of my husband, Mohammad Sajid for his everlasting loving support, affection and encouragement in accomplishing this task. It is solely because of his hard work, I am able to present this thesis.
My sincere appreciation and heartfelt thanks are due to Dr. Izharul Haq Farooqi, Associate Professor, Department of Civil Engineering, Z.H.C.E.T., A.M.U., Aligarh, for his help and advice.

I especially thank to my friend Dr. Fauzia Bano Farooqui, Guest Faculty, Boys Polytechnic, A.M.U., Aligarh for her encouragement and support.

I find no words to acknowledge my lab colleagues, Qamaruzzaman, Massarat, Hina, Nelofar, Sherin and Nazia who helped me in various ways during the progress of this work.

I am also thankful to U.G.C. for providing me scholarship to carry out research work in the form of Research Project Vide No.33-278/2007(SR).

I also wish to put my immense gratitude to all the teachers, non-teaching staff and research scholars of the Department of Applied Chemistry who encouraged me and provided moral support for the completion of this thesis.

Finally I express my deep sense of gratitude to my parents and other family members who have been a constant source of inspiration throughout this work.

UZMA AISHA
