

## ACKNOWLEDGEMENTS

*I am thankful to God for making things possible at the right time always.*

I would like to express my sincere gratitude to my exceptional supervisor, **Dr. A. K. Sharma**, for his continuous guidance, valuable advice, constructive criticism and helpful discussions. He gave me the opportunity to learn various new things and taught me a lot about research, teaching and life. Without his warm encouragement, I would not have been able to accomplish this thesis.

I am thankful to **Dr. Ashok Kumar**, Director, YMCA Institute of Engineering, for his constant encouragement and moral support during the course of this research work.

I would like to thank my colleagues Dr. C. K. Nagpal, Dr. Naresh Chauhan, Dr. Manjeet Singh, Sh. Ashutosh Dixit, Ms. Jyoti, Ms. Anuradha, Ms. Shruti Sharma, Ms. Neelam Duhan, Ms. Sapna Gambhir, Sh. Harish Kumar and other faculty members at YMCA Institute of Engineering for their valuable technical discussions and cooperation. I am also thankful to *all my students, especially M.Tech. students* who helped me directly or indirectly in completing my research work.

I am thankful to my parents for their love, encouragement and support throughout my education. I am also thankful for all the support received from my brother **Narander Bhatia**.

I would also like to thank my friends **Sandeep Kumar** and **Sunil Kumar** for being there for me and for helping me maintain my sanity. My other friends (that are not list here) helped me in achieving balance in my life. Their help was invaluable and I know that without them, I would have never finished this thesis.

**(KOMAL KUMAR BHATIA)**
