List of Figures

**Figure 3.3** Scatters between AltiKa and Buoy (a) SWH, and (b) WS over the NIO (Subscript A denotes AltiKa and B denotes Buoy) 71

**Figure 3.4** Plot of AltiKa and Buoy (a) SWH (b) WS for the period March 13, 2013 to March 12, 2015 72

**Figure 3.5** Plot of differences between AltiKa and Buoy values for (a) SWH (b) WS 76

**Figure 3.6** Monthly mean of (a) SWH (b) WS; and SD of monthly averaged (c) SWH (d) WS (Subscript A denotes AltiKa and B denotes Buoy) 79

**Figure 3.7** Monthly bias in AltiKa SWH (dotted line) and WS (solid line) 80

**Figure 4.1** Global ocean surface currents and gyres 87

**Figure 4.2** Cyclonic and anticyclonic eddies 88

**Figure 4.3** Currents over Indian Ocean during summer monsoon 91

**Figure 4.4** Currents over Indian Ocean during winter monsoon 92

**Figure 4.5** SSHA (cm) during (a) April 2013 (b) May 2013 (c) April 2014(d) May 2014 100

**Figure 4.6** SSHA (cm) during (a) December 2013 (b) January 2014 (c) February 2014 (d) March 2014 101

**Figure 4.7** SSHA plot showing Arabian anticyclonic high, 2013 (a) April (b) May (c) June 103

**Figure 4.8** SSHA plot showing Arabian anticyclonic high, 2013 (a) January (b) February (c) March (d) April (e) May (f) June 103

**Figure 4.9** SSHA plot showing Lakshadweep High (a) November 2013 (b) December 2013 (c) January 2014 (d) February 2014 (e) March 2014 (f) April 2014 104

**Figure 4.10** SSHA plot during southwest monsoon (a) June 2013 (b) July 2013 (c) August 2013 (d) September 2013 108

**Figure 4.11** SSHA plot during southwest monsoon (a) June 2014 (b) July 2014 (c) August 2014 (d) September 2014 109

**Figure 4.12** SSHA plot showing East India Coastal Currents (a) January 2014 (b) February 2014 (c) March 2014. 112
List of Figures

**Figure 4.13** SSHA plot (a) April 2013 (b) May 2013 (c) June 2013 (d) April 2014 (b) May 2014 (c) June 2014

**Figure 4.14** SSHA plot (a) August 2013 (b) October 2013 (c) November 2013 (d) December 2013

**Figure 4.15** SSHA plots (a) August 2014 (b) October 2014 (c) November 2014 (d) December 2014

**Figure 4.16** Merged SSHA plot (a) January 2013 (b) February 2013 (c) March 2013

**Figure 4.17** AltiKa SSHA plot (a) January 2014 (b) February 2014 (c) March 2014 and merged SSHA plot (a) January 2014 (b) February 2014 (c) March 2014

**Figure 5.1** Schematic diagram of a cyclone (Courtesy: Indian Meteorological Department, IMD)

**Figure 5.2** A well developed cyclone system over Bay of Bengal

**Figure 5.3** Composite structure of cyclone as seen in Radar imagery (Courtesy: Indian Meteorological Department, IMD)

**Figure 5.4** Schematic vertical structure of a cyclone storm (Courtesy: IMD)

**Figure 5.5** Cyclone Mahasen track and buoy locations along with AltiKa and Jason-2 passes.

**Figure 5.6** Cyclone Phailin track and buoy locations along with AltiKa pass.

**Figure 5.7** Cyclone Hudhud track and buoy locations along with AltiKa and Jason-2 passes.

**Figure 5.8** (a) Infrared Brightness Temperature image of Mahasen cyclone system over Bay of Bengal along with Jason-2 pass (solid white line) over the cyclone on 15 May 2013. Jason-2 (b) Significant Wave Height and (c) Wind Speed, as a function of latitude along the altimeter path shown on the infrared image.

**Figure 5.9** (a) Infrared Brightness Temperature image of Mahasen cyclone system over Bay of Bengal along with AltiKa pass (solid white line) over the cyclone on 16 May 2013. AltiKa (b) Significant Wave Height and (c) Wind Speed, as a function of latitude along the altimeter path shown on the infrared image.
List of Figures

**Figure 5.10** Buoy data during cyclone Mahasen (a) SWH (b) WS  

**Figure 5.11** SSHA values from AltiKa and Jason-2 during cyclone Mahasen.

**Figure 5.12** (a) Infrared Brightness Temperature image of Phailin cyclone system over Bay of Bengal along with AltiKa pass (solid white line) over the cyclone on 12 October 2013. AltiKa (b) Significant Wave Height and (c) Wind Speed, as a function of latitude along the altimeter path shown on the infrared image.

**Figure 5.13** Buoy data during cyclone Phailin (a) SWH (b) WS.

**Figure 5.14** Comparison of SSHA during cyclone Phailin from AltiKa path 06, cycle 7 with the same paths from cycle 6 and 8.

**Figure 5.15** (a) Infrared Brightness Temperature image of Hudhud cyclone system over Bay of Bengal along with AltiKa pass (solid white line) over the cyclone on 10 October 2014. AltiKa (b) Significant Wave Height and (c) Wind Speed, as a function of latitude along the altimeter path shown on the infrared image.

**Figure 5.16** (a) Infrared Brightness Temperature image of Hudhud cyclone system over Bay of Bengal along with Jason-2 pass (solid white line) over the cyclone on 11 October 2014. Jason-2 (b) Significant Wave Height and (c) Wind Speed, as a function of latitude along the altimeter path shown on the infrared image.

**Figure 5.17** Buoy data during cyclone Hudhud (a) SWH (b) WS.
