Acknowledgement

With deep reverence and thankfulness, I bow my head to the Almighty for making this task reach its completion.

First and foremost, I want to thank my research supervisor, Prof. Masood Ahmad for his unwavering support, scholarly guidance and constant encouragement. It has been an honor to be his Ph.D student. With great regard I appreciate all his contributions, in time, ideas, and funding. The joy and enthusiasm he has for research is contagious and motivational and indeed made my Ph.D experience productive and stimulating. He is an exemplary biochemist, supervisor and educationist.

I would also like to extend my thanks to the chairperson Prof. Bilqees Bano, a very sincere thanks to Prof. Hadi, Prof A.N.K. Yusufi, Prof. Riaz Mahmood, Prof. Imrana Naseem, Prof. Qayyum Hussain, Prof. Nahid Banu, Dr. M. Tabish, Dr. Fahim H. Khan, Dr. Farha Khan and Dr. Aabgeena.

I would also like to warmly acknowledge to people who have always been a tonic of care and support cheering me up in the lows the compulsory accompaniments of Ph.D. My only senior cum lab mate, Shams bhai, who was not only the best critic of my work but also fostered in me the courage ‘to carry on’. He had a solution of almost all my worries. His everlasting motivational words, inspirational thoughts and care coated with lovable nature helped me throughout the thick and thin of my Ph.D period. I wish to record my thanks to Medha Mam who has been very supportive and idealistic senior all the time. My huge thanks to Aaliya Mam for her motivational support and caring nature that made me tensionless.

I am also thankful for the kind support I drew from my seniors Dr. Fahad, Dr. Ashraf, Dr. Wasim, Dr. Zoheb, Dr. Rukhsana, Dr. Aatif (who has bundles of tips to cherish a person), Faisal Bhai and my friends Rayees, Bilal, Badar, Humaira, Nida, Shafquat, Haseeb, Tariq, Sayeed, Amir, Hussain, Kaisar, Ahmad, Azad, Rauf, Nisar, Ashreeb, Shireen, Afshin, Samreen, Sana, Dilnasheen, Maria, Abhilasha, Maryam, Hassan and Farhan.

I would especially like to acknowledge the wonderful comradeship of Taqi (for the tours that invigorated the spirits), Iftekar (for his ready and useful suggestions
that spirited the brain) Shakeel and Zaheer (for his pleasant company). Special thanks are due Sandesh for helping me day and night during both experimental and writing work of my Ph.D. He had been an excellent companion and sensor of my tension-marker levels normalizing them whenever the threshold was crossed.

The kind help extended by the office and lab staff is also acknowledged with appreciation. I would also like to thank Goldy, my typist, for providing neat and error free script.

My feelings for ma and papa are indescribable. They instilled in me the spirit to move on and move on. They have been very patient and supportive in all the experiments that I embarked on since my childhood. Continuing till my doctorate their endless affection, support and invariable faith made me achieve this insurmountable feat. They provided the much needed back up whenever my hopes crashed. I owe this to you both. I also thanks to my elder uncle Dr. S. K. Gupta for his unfailing support and guidance. Sapna di, Pallavi, Vijay bhaiya and dearest Richa bhabhi deserve special thanks for their unconditional love and co-operation. My gracious thanks to my brother in law Mr Ravi Aggrawal for motivating me during my research work. Again delightful thanks to Suraj, Dolly and Vitthal for making smile on my face.

My special thanks to Mr Arjun and Ms Nidhi for extending help in experiments which were not possible here.

The UPCST, Lucknow is gratefully acknowledged for providing necessary financial assistance as junior research fellow.

(Amit Kumar Gupta)
