ABSTRACT

This thesis entitled “COMPUTER ASSISTED LANGUAGE LEARNING AND MULTIMEDIA AS EFFECTIVE TOOLS TO ENHANCE COMMUNICATION SKILLS IN ENGLISH: A STUDY AT THE P.G LEVEL” is an evaluative study conducted in the department of English, Manonmaniam Sundaranar University, Tirunelveli. The researcher has critically analyzed the significance of Multimedia and CALL software and developed a Prototype English Speaking Course on communicative competence in English. This course has been exclusively designed to develop the communication skills of the English department students of the Manonmaniam Sundaranar University. The researcher has systematically collected the data of each student and evaluated through an effective testing, Rubric testing and evaluation, method. This research has been concluded with some new possibilities for further research with enough suggestions and highlighted the hypothesis realization, limitations of the study, feedback etc.
