ACKNOWLEDGEMENT

I am greatly thankful to my Almighty for guiding me and showing me the path to truth and righteousness and bestowed His blessings upon me and equipped me so that I fulfill my targets. I surrender in deep reverence to the most merciful and the most beneficent, “Allah” who blessed me with His power, determination and direction to complete this thesis. It’s very correctly said that in the Holy Quran.

“Read and your Lord is most generous
Who has taught (the writing) by pen
Has taught man which he knew not”

Science is a field where the boundary of exploration is very vast. I would like to quote Sir Isaac Newton here, “I was like a boy playing on the sea-shore, and diverting myself now and then finding a smoother pebble or a prettier shell than ordinary, whilst the great ocean of truth lay all undiscovered before me”. So this bit of work done by me is an attempt to better understand life and biological system, explore certain new ideas in the field of Biochemistry and Molecular Biology. During this period I was helped and guided by a number of people whom I need to thank sincerely.

First of all I would like to thank my supervisor, Dr. Mohammad Tabish, for providing me the golden opportunity to work on this interesting project. He has been a guide, teacher and inspiration. His presence made the work easy and special advices always made our experiments and life comfortable and successful. His encouragement, patience and ability to look beyond mistakes and failures shall always remain treasured learning lessons in my life. I have a deep sense of appreciation for his strive for excellence in the field of research.

Teachers are the guiding light and without their support I would have never accomplished my goals. I would like to thank our chairperson, Prof. Bilqees Bano, for proving necessary facilities in the department and always being ready to listen and resolve the problems and Prof. Masood Ahmad, Dean, F/o Life Sciences, for disciple and order. Prof. SM Hadi, Prof. ANK Yusufi, Prof. Naheed Banu, Prof. Qayyum Husain, Prof. Riaz Mahmood, Prof. Imrana Naseem, Dr. Fahim Halim Khan, Dr. Farah Khan, Dr. Abgeena Nayeem and Dr. Shamila Fatima have been a source of vast knowledge and I am immensely grateful to them.

I am thankful to my lab members Rouf, Sayeed, Aamir and Tarique for their ready help and cooperation as well as for providing a contented and friendly atmosphere in the lab. I thank my batch mates Ashreeb, Kaisar, Husain, Naveed and my seniors Amit, Sandesh, Iftekhar, Taqi, Humaira, Aaliya, Shahnawaz.
Shams, Zoheb, Fahad, Uzma, Sarmad, Erum, Showkat, Shubha and Faisal. My juniors Maria, Dilnasheen, Afsheen, Samreen, Sana, Ahmad, Aamir, Nisar, Azad and Jahir who made the department lively also deserve due acknowledgement for their warm and welcoming smile and greetings in the department.

My friends Nida, Saman, Anubha, Shaheena, Ruqaiya and Supriya have been my constant support through my success and failure. Without them my life would have been very difficult. Adeel, my friend and guide, has always helped me in every possible way. My discussions with him always helped me develop a better understanding of my subject. My seniors Aatif Bhai and Medha apa have always guided me and provided me the sound advices.

I would like to thank the non-teaching staff of our department Mr. Shahanshah, Mr. Yousuf, Mr. Waseem, Mr. Saleem, Mr. Aqeel, Mr. Arif and Mr. Dilshad for their assistance. I would like to extend special thanks to Mrs. Shahnaz for her amiable and helping attitude.

I cannot comprehend my gratitude to my family. My parents are not only my source of inspiration but they are my ideals. My brothers and sisters have always showed me the right path. I would like to thank Nishat apa, Shagufta apa, Ehtesham bhai and Shadab bhabhi for the their incessant encouragement and support. I would like to thank my nephew and nieces, Zohaib, Areeba, Rabiya, Junaid, Ayesha, Omar, Sharique and Maheen for believing in me. Their words “You are the best” always helped me overcome criticism and showed me the light whenever I was lost. I am extraordinarily fortunate to have supporting in-laws. I am grateful to them and Samiya for making my new house comfortable and warm.

At times our own light goes out and is rekindled by a spark from another person. For me Haseeb is that very special person who is not only my husband but also my best friend. He miraculously converts my weakness to strength; rejection to approval; chaos to order; confusion to clarity..................tears to smile. I will always cherish his presence in my life.

I would like to thank Council for Scientific and Industrial Research for the financial assistance under the File No: 09/112 (0429)/2008-EMR-1. Last but not the least I am thankful to Aligarh Muslim University, Aligarh for providing the necessary facilities.

(Shafquat Azim)
