I take this opportunity to express my profound sense of gratitude to my distinguished supervisors Professor R.K.Nigam, Ph.D., F.R.I.C. (London), F.N.A.Sc. (India) and Dr.K.C.Singh, Ph.D., Department of Chemistry, M.D.University, Rohtak, who not withstanding great inconvenience, has briefed me about the minute details of the present work. I am extremely indebted to them for their inspiring guidance, constructive criticism, unreserved help which paved the way for the successful completion of this work. It has indeed been my privilege to work under them.
I have benefitted highly from the discussions I had with Dr. K.C. Kalra, Reader in our department.

It is a pleasure to thank my colleagues and friends S.P. Sharma, Prakash, D.C. Spah, Virender, Vijayent, G.S.R., Manoj, Bhupinder and Satbir for the co-operation and help they have extended to me in the preparation of this thesis.

I thank Mr. R. Sharma for the tracings, Mr. Ashok Malik for neat and patient typing of the manuscript and electrostat work.

The financial assistance from the Council of Scientific and Industrial Research, New Delhi, is greatly acknowledged.

(SANJEEV KUMAR MAKEN)
