ACKNOWLEDGEMENTS

Words are often too less to reveal one’s deep regards. An understanding of the work like this is never the outcome of the efforts of a single person. I take this opportunity to express my profound sense of gratitude and respect to all those who helped me through the duration of this Ph.D. thesis.

First, I would like to thank the Supreme Power, the God, since born to till now for each moment give their support, being with me and always guided me to work on the right path of life. Without his grace, this would not have been possible.

This work would not have been possible without the encouragement and able guidance of my teacher and my esteemed promoter, Dr. Narasimhan B., since first day of our Research Discussion, to all the way journey towards my research. Words are too short to thanks to my sir for his belief in my abilities, his advice, encouragement, wisdom, intellectual brilliance, and endless kindness. Sir provided me the support, I needed at every step. It is his careful supervision that brought me wherever I stand today in my research career. My Research period pass as smooth as fish swims in river. This never been possible without his support, and treats me as child give direction to challenge and face new target of my life.

I would like to record my sincere thanks and profound gratitude to Prof. Arun Nanda, Dean, Faculty of Pharmaceutical sciences and former Head, Department of Pharmaceutical Sciences, Maharshi Dayanand University, Rohtak, for providing necessary facilities to carry out this research work.

I want to express my deep thanks to Mr. Pradeep Kumar, (SRF) for your support during the whole period of the study, and especially for during the writing process and his help inside and outside the lab.

I wish to acknowledge Mr. Aakash Deep (SRF), Dr. Govind Singh, and Mr. Anurag Khatkar, Assistant Professors and Department of Pharmaceutical Sciences, MDU, Rohtak for their constant encouragement. I heartly thanks to Mr. Rajbir for his constant support throughout my research. Also, I am thankful to all my colleagues and non teaching staff members for their timely support.

I would also like to thank Mr. Rakesh Kumar, and Mohan Verma, PG research scholar for their help in the time of need. I am also thankful to Mr. Sanjiv Kumar and Ms. Snehlata, Research scholars, for their help. My special thanks go to Sh. Ombeer, Sh. Vijender Chauhan, Sh. Satbir Singh, Sh. Naresh Sharma, Sh. Ranbir Dalal, Mr. Parveen Kumar, Sh. Hemraj, Sh. Paranveer, Sh. Jaipal Phogat and Mr. Rakesh Kumar, for their unconditional support.
My deepest gratitude goes to my family for their unflagging love and support throughout my life; this thesis is simply impossible without them. I am indebted to my grandfather, Shri Kehar Singh, my father, Shri Dalip Singh and my mother Shrimati Savitri Devi. My family provides the best possible environment for me to grow up and attend school. They had never complained in spite of all the hardships in his life. I am ever grateful to their unselfish blessings and support. Every breath of my life, drop of blood in my body dedicated to them.

My special acknowledgement for my better half Daya, always positive, joyful and lovely kids, Ashish Kumar, Arti Badhafiya and my nephew Aryan Badhafiya for their constant moral support, love and sacrifice throughout my research. I can't forget the encouragement and support from my younger brother, Satender Kumar and his wife Saroj Devi, who have been a powerful source of inspiration and energy for me.

Finally, I would like to thank everybody who was important to the successful realization of thesis, as well as expressing my apology that I could not mention personally one by one.

(Mahesh Kumar)
