I am honoured to express my deep sense of gratitude to my respected teacher and learned guide Prof. Sarvajit Singh, Department of Mathematics, Maharshi Dayanand University, Rohtak, for his indispensable guidance and constructive criticism throughout the course of these investigations. His constant encouragement and perpetual inspirations to me made this research work possible.

I am also grateful to Prof. R.K. Tuteja, Head of the Mathematics Department, Maharshi Dayanand University, Rohtak, for his encouragement, in addition to providing the necessary research facilities during the entire course of this work.

I also wish to acknowledge with thanks the help and co-operation rendered by Dr. N.R. Garg, Department of Mathematics, Maharshi Dayanand University, Rohtak and Sh. Veer Sain Batra, Computer Centre, M.D. University, Rohtak, for his help in the computation work.

I am extremely thankful to all my teachers and colleagues in the Department for their help and co-operation. Thanks are also due to Mr. Jai Parkash for typing the thesis.

My mother has always been a source of strength and encouragement. The moral support that I received from her
during this arduous task kept my spirits high during the preparation of this thesis.

Last, but not the least, the financial assistance received from the CSIR firstly in the form of a Junior Research Fellowship under the research scheme "Seismic Source Studies" sanctioned to Prof. Sarvajit Singh and then the award of a Senior Research Fellowship is gratefully acknowledged.
