Table 1.1.A Plan outlay on Health & Family Welfare in Different Plan Periods Centre, States & Uts. ........................................................ 10
Table 1.1.B Scheme wise 10th Plan Allocation, Actual Expenditure, 2002–05, BE for 2005–06 (Family welfare) .................................................. 11
Table 1.2.A World Contraceptive Use, 2007 ............................................... 13
Table 1.2.B Contraceptive use, ASIA 2007 .................................................. 15
Table 1.3 Socio–Economic and Demographic Profile, India, 2001 ........... 18
Table 1.4 Trend in Population Growth Rate, Crude Birth Rate, Crude Death Rate and Sex Ratio, India, 1901–2001 .......................... 19
Table 1.6 Trends in TFR, IMR, MMR, CMR, INDIA (1951–2001), ............. 21
Table 1.7 State wise Estimated Birth Rate, Death Rate, Natural Growth Rate and Infant Mortality Rate, 2005 .............................................. 22
Table 1.8 Maternal Mortality Rates in India, States, 1990–91, 1997–98 and 2000-03 ........................................................................ 23
Table 1.9 Family Planning Acceptance by Methods, India (1980–81 to 2005–06) ........................................................................ 24
Table 1.10 Rural/Urban Break up of Sterilization, India, (1980–81 to 2004–05) ........................................................................ 25
Table 1.11 Sex wise Break up of Sterilization in India, (1980–81 to 2004–05). ................................................................. 26
Table 1.12 Rural/Urban Break up of IUD Insertion in India, (1980–81 to 2004–05) ........................................................................ 27
Table 1.13 Percentage Distribution of Couples Currently and Effectively Protected in India by Various Methods of Family Planning.... 28
Table 1.14.A Key Indicators of Family Planning in India–NFHS Report 1,2 & 3 ........................................................................ 30
Table 1.14.B Selected Demographic Indicators of NFHS 1,2 & 3, and DLHS 1 & 2 ........................................................................ 32
Table 1.15 Assam with Districts, Census 2001 ................................................. 34
Table 1.16 Socio–Economic Development Indices of Assam, by Districts, 2001 Census ........................................................................ 36
Table 1.17 Percentage Decadal Growth Rate, India and Assam, 1901–2001 37
Table 1.18 Percentage Decadal Growth of Population, Assam, 1901–2001 37
Table 1.19 Crude Birth Rate, Total Fertility Rates, Infant Mortality Rate, India, Assam (1981 – 2005) .............................................................. 38
Table 1.20 Estimated Crude Birth Rate and Total Fertility Rates in Assam by Districts, 2001 .............................................................. 39
Table 1.21 Comparative Statistics of key Indicators of Family Planning, Assam, India........................................................................ 40
Table 1.22 Contraceptive Prevalence Rate by District in Assam, 2002–04 41
Table 1.23.A Family Welfare Performance of Assam, by Sterilization, 2006–09 42
Table 1.23.B Family Welfare Performance of Assam, by I.U.D. Insertion, 2006–09................................................................. 43
Table 1.23.C Family Welfare Performance, By O.P. Users, 2006–09...... 44
Table 1.23.D Family Welfare Performance, By Vasectomy, 2006–09...... 45
Table 1.24 Key Indicators of Family Planning Acceptance, of North Eastern States, 2002 – 04. ........................................... 46
Table 1.25 Key Indicators of Family Planning, India, Assam and Darrang, 1998-99 to 2002- 04. .................................................... 47
Table 1.26 Percentage of female Sterilization to the total Sterilization, India, Assam and Darrang, 2004 – 06............................. 48
Table 1.27 Family Planning Acceptance, Char–Chapari and main Land, Darrang, 2007................................................................. 49
Table 1.28 Mean Number of Children ever Born by Caste and Religion, Darrang, 2002................................................................. 50
Table 2.1.A Distribution of Total Sample: Block / Town Wise.............. 72
Table 2.1.B Percentage Distribution of the Total Sample: Block/Town...... 73
Table 2.2 Percentage Distribution of Total Sample Size by Rural/Urban.. 77
Table 2.3 Total Sample Size by Selected Groups of Respondents....... 78
Table 2.4 Percentage Distribution of Respondents by Types of Family. 79
Table 2.5 Percentage Distribution of Respondents by Education ...... 79
Table 2.6 Percentage Distribution of Husbands by Education.............. 80
Table 2.7 Percentage Distribution of Respondents by Occupation....... 81
Table 2.8 Percentage Distribution of the Husbands by Occupation....... 82
Table 2.9 Percentage Distribution of Respondents by Monthly Family Income................................................................................ 83
Table 2.10 Percentage Distribution of Respondents by Monthly Family Expenditure................................................................. 84
Table 2.11 Percentage Distribution of Husbands who have ever Discussed the Use of Family Planning........................................... 85
Table 2.12 Percentage Distribution of Respondents by Timing of husband-wife discussion on family planning......................... 85
Table 2.13 Percentage Distribution of Respondents by Accessibility to the Health Facility.............................................................. 86
Table 2.14 Percentage Distribution of Respondents who are Exposed to Family Planning Message ............................................. 87
Table 2.15 Percentage Distribution of Respondents by Current Age....... 88
Table 2.16 Percentage Distribution of Respondents by Age at Marriage... 89
Table 2.17 Percentage Distribution of Respondents by Age at first Birth.. 90
Table 2.18 Percentage Distribution of Respondents by Total Number of Living Children .............................................................. 91
Table 2.19 Percentage Distribution of Respondents by Total Abortions... 91
Table 2.20 Percentage Distribution of Respondents by Experienced Child Loss............................................................................. 92
Table 2.21 Percentage Distribution of Respondents by Knowledge of Contraception ................................................................. 93
Table 2.22 Percentage Distribution of Respondents by Current Use of Contraceptive

Table 3.1 Selected Demographic Indicators for all Women and Scheduled Tribe Women in India

Table 3.2 Percentage distribution of Respondents by Place of Residence: Tribal, Non-Tribal and Char Women

Table 3.3.A Differential Socio-Economic Attributes: Tribal, Non-Tribal and Char Women

Table 3.3.B Differential Demographic Attributes: Tribal, Non-Tribal and Char Women

Table 3.4 Decision regarding Total Number of Children: Tribal, Non-Tribal and char Women

Table 3.5 Decision Regarding Total Number of Sons and Daughters: Tribal, Non – Tribal and Char Women

Table 3.6 Decision regarding Spacing between Children: Tribal, Non-Tribal and the Char Women

Table 3.7 Decision regarding Choice Contraception: Tribal, Non-Tribal and Char Women

Table 3.8 Decision Regarding the Choice of Sterilization: Tribal, Non-Tribal and Char Women

Table 4.1 Percentage Distribution of the Total Users and Non-users by Rural / Urban Background: Tribal, Non-Tribal and Char Women

Table 4.2 Percentage Distribution of the Total Users of Contraceptive by Methods: Rural / Urban

Table 4.3 Percentage Distribution of the Total Users of Contraception (Modern and Traditional) by Socio-Economic and Demographic Attributes: Rural/Urban

Table 5.1 Total Use of Modern Methods of Contraception (Sterilization and Spacing): Rural/Urban

Table 5.2 Percentage Distribution of the Total users of Terminal and Spacing Methods by Tribal, Non-Tribal and Char Women

Table 5.3 Rural=Urban Percentage Distribution of the users of Terminal and Spacing Methods by Tribal, Non-Tribal and Char Women

Table 5.A.1 Percentage Distribution of Urban, Rural and Total Users of Sterilization by Socio–Economic and Demographic Characteristics

Table 5.A.2 Percentage Distribution of the Total Users of Sterilization by Current Mean Age: Tribal and Non-Tribal Women

Table 5.A.3 Percentage Distribution of the Total Users of Sterilization by Mean Age at sterilization: Tribal and Non-Tribal Women

Table 5.A.4 Percentage Distribution of the Total Users of Sterilization by Total Number of Living Children: Tribal and Non-Tribal Women

Table 5.A.5 Percentage Distribution of the Users of Sterilization by Number of Living Sons: Tribal and Non-Tribal Women
Table 5.A.6 Percentage Distribution of the Total Users of Sterilization by Total Number of Living Daughters: Tribal, Non-Tribal women

Table 5.B.1 Percentage Distribution of the Total Users of Modern Spacing Methods: Tribal, Non-tribal and Char women

Table 5.B.2 Percentage Distribution of Urban, Rural and Total Users of Modern Spacing Methods by Socio-Economic and Demographic Characteristics

Table 5.B.3 Percentage Distribution of the Total Users of Modern Spacing Methods by Current Mean Age: Tribal, Non-Tribal and Char Women

Table 5.B.4 Percentage Distribution of the Users of Modern Spacing Methods by Mean Number of Living Children: Tribal, Non-Tribal and Char Women

Table 5.B.5 Percentage Distribution of the Users of Modern Spacing Method by First use of spacing: Tribal, Non – Tribal and Char Women

Table 5.B.6 Percentage Distribution of the Users of Modern Spacing Method by the Average years of Spacing between Two Births: tribal non tribal women

Table 6.1 Percentage Distribution of Non-Users: Rural/Urban

Table 6.2 Percentage Distribution of Users and Non-Users: Rural/Urban

Table 6.3 Intention to Use Contraception and the need for Total, Limiting and Spacing

Table 6.4 Percentage Distribution of Non-Pregnant Women by Reason Components of Unmet Need

Table 6.5 Percentage Distribution of Reason Components of Unmet Need: Rural and Urban

Table 6.6 Percentage Distribution of Reason Components of Unmet Need by Tribal, Non – Tribal and Char Women

Table 6.7 Percentage Distribution of Reason Components of Unmet Need by Educational Status of Respondents

Table 6.8 Percentage Distribution of Reason Components of Unmet Need by Educational Status of Husband

Table 6.9 Percentage Distribution of Reason Components of Unmet Need by Occupational Status of Respondents

Table 6.10 Percentage Distribution of Reason Components of Unmet Need by Occupational Status of Husbands

Table 6.11 Percentage Distribution of Reason Components of Unmet Need by Monthly Family Income

Table 6.12 Percentage Distribution of Reason Components of Unmet Need by Monthly Family Expenditure

Table 6.13 Percentage Distribution of Reason Components of Unmet Need by Husband-wife Discussion

Table 6.14 Percentage Distribution of Reason Components of Unmet Need by Current Age of Respondents
Table 6.15  Percentage Distribution of Reason Components of Unmet Need by Total Number of Living Children ......................... 179
Table 6.16  Percentage Distribution of Reason Components of Unmet Need by Number of Living Sons................................................ 180
Table 6.17  Percentage Distribution of Reason Component of Unmet Need by Child Loss................................................................. 181
Table 7.1  Odds Ratio of Binary Logit Regression for the Determinants of the Use of Female Sterilisation Among the Currently Married Women with at Least one Living Child......................... 194
Table 7.2.  Odds Ratio of Binary Logit Regression for the Determinants of the Use of Modern Spacing Method among the Currently Married Women with at Least one Living Child......................... 196
Table 7.3.  Odds Ratio of Binary Logit Regression for the Determinants of the Total Use of Modern Contraceptive Among the Currently Married Women with at Least one Living Child......................... 198
