### CHAPTER-I

#### INTRODUCTION

01-04

1.1 Basic concepts

1.2 The study area

1.3 Objectives

1.4 Hypotheses

### CHAPTER-II

#### REVIEW OF LITERATURE

05-32

2.1 Geo-environmental Study

2.2 Older alluvium
2.3 Soil characteristics

2.4 Classification and mapping of the Soil

2.5 Geo-environmental factors and processes of Soil formation

2.5.1 Factors

2.5.2 Processes

2.6 Paleohistory, Land Use/Land cover

2.6.1. Paleohistory

2.6.1. Land Use/Land cover

2.7 Land evaluation for land use planning

CHAPTER-III

THE STUDY AREA

3.1 Environmental Settings

3.1.1. Location and extent

3.1.2 Specific study locations

3.1.3 Physiography, Relief and Topography

3.1.4 Geology

3.1.5 Geomorphology

3.1.6 Hydrology

3.1.7 Climate
3.1.8 Natural Vegetation

3.2 Present Land use and socioeconomic database

3.2.1 Agriculture and present land use

3.2.2 Population

3.2.3 Transport and marketing facilities

CHAPTER-IV

MATERIALS AND METHODS

4.1 Materials

4.2 Methods

4.2.1 Pre field work stage

4.2.2 Field work stage

4.2.3 Post field work stage

CHAPTER-V

RESULTS AND DISCUSSION

5.1 Features of the studied Pedons

5.1.1 Location 1

5.1.2 Location 2

5.1.3 Location 3
5.2 Soil climatic regime

5.2.1 Soil moisture regime

5.2.1 Soil temperature regime

5.3 Soil Classification

5.3.1 Classification of older alluvium

5.3.2 Classification of associated Soil

5.4 Mapping of older alluvium soil of the study area

5.5 Comparative study of older alluvium with adjacent soil
   (old flood plain soil)

5.6 Geo-environmental factors and processes of formation of older alluvium

5.6.1 Geo-environmental factors

5.6.2 Geo-environmental Processes

5.7 Land Use and Socioeconomic Environment

5.7.1 Land Use

5.7.2 Population

5.7.3 Industry

5.7.4 Economic Scenario

5.8 Land Evaluation

5.8.1 Land Capability Classification
5.8.2 Land Suitability Classification

5.9 Hydro-geological Scenario and Ground Water Resources

5.9.1 Ground water prospects of older alluvium

5.9.2 Water Level scenario of older alluvium

5.10 Other Geo-environmental features of the study area

5.10.1 Seismic Hazard

5.10.2 Mineral Resources

CHAPTER-VI

GENERAL DISCUSSION 127-140

6.1 Soil Characteristics

6.1.1 Soil morphology

6.1.2 Physicochemical properties

6.2 Potentials and Problems of Older alluvium

6.2.1 Potentials

6.2.2 Problems

6.3 Strategy for better management of land and its Resources

6.3.1 Land Management

6.3.2 Water resource management

6.3.3 Land Use planning
CHAPTER-VII

SUMMARY AND CONCLUSION 141-144

6.1 Summary

6.2 Conclusion

BIBLIOGRAPHY 145-155

APPENDICES 156-213
