

LIST OF TABLES

Sl. No.	Table No.	Title	Page No.
1.	3.1.	Load-deflection co-efficient	74
2.	3.2.	Constants (<i>a</i> and <i>b</i>)for load-deflection equation	75
3.	3.3.	Moment-deflection co-efficient	76
4.	3.4.	Constants for moment-deflection equation	77
5.	3.5.	Input data for sand	79
6.	3.6.	Deflection of pile in sand for lateral load of 20 kN (mm)	80
7.	3.7.	Deflection of pile in sand for lateral load of 30 kN (mm)	80
8.	3.8.	Deflection of pile in sand for lateral load of 40 kN (mm)	81
9.	3.9.	Deflection of pile in sand for lateral load of 50 kN (mm)	81
10.	3.10.	Input data for clay	91
11.	3.11.	Deflection of pile in clay for lateral load of 20 kN (mm)	92
12.	3.12.	Deflection of pile in clay for lateral load of 30 kN (mm)	92
13.	3.13.	Deflection of pile in clay for lateral load of 40 kN (mm)	93
14.	3.14.	Deflection of pile in clay for lateral load of 50 kN (mm)	93
15.	3.15.	Bending moment of Pile in sand for lateral load of 20 kN (kNm)	101
16.	3.16.	Bending moment of pile in sand for lateral load of 30 kN (kNm)	101
17.	3.17.	Bending moment of pile in sand for lateral load of 40 kN (kNm)	102
18.	3.18.	Bending moment of pile in sand for lateral load of 50 kN (kNm)	102
19.	3.19.	Bending moment of pile in clay for lateral load of 20 (kNm)	111

Sl. No.	Table No.	Title	Page No.
20.	3.20.	Bending moment of pile in clay for lateral load of 30 kN (kNm)	112
21.	3.21.	Bending moment of pile in clay for lateral load of 40 kN (kNm)	112
22.	3.22.	Bending moment of pile in clay for lateral load of 50 kN (kNm)	113
23.	3.23.	Increments of deflection in sand (I_{Def})	120
24.	4.1.	Type of coarseness and approximate number of elements developed	134
25.	4.2.	Properties of soil considering for this study	140
26.	4.3.	Properties of pile and pile cap	140
27.	4.4.	Lateral pile cap resistance from analytical studies	162
28.	5.1.	Criteria for rigid and flexible pile	168
29.	5.2.	Dimensions of pile cap (Plates)	169
30.	5.3.	Dimensions of piles (hollow tubes)	169
31.	5.4.	Type of pile group and material used for experimentation	172
32.	5.5.	Lateral pile cap resistance of model pile group	220
33.	6.1.	Performance measures for numeric prediction	236
34.	6.2.	Pile cap lateral resistance predicted by <i>SVM</i>	238
35.	6.3.	Pile cap lateral resistance predicted by <i>MSP</i>	244
